Please consider a gift to dermatologic research. You can specify a particular research area, condition, physician’s research area, or you may direct gifts to the general fund to support the department's most urgent needs.

**CURTIS (clinical trials for the skin/Harvard Skin Studies)**

CURTIS stands for Clinical Unit for Research Trials and Outcomes in Skin. We are a research unit in the Dermatology Department of Massachusetts General Hospital that conducts a wide range of patient studies evaluating new therapies for a broad spectrum of skin diseases, as well as investigating quality of life issues.

**Cutaneous Biology Research (basic academic research)**

The Cutaneous Biology Research Center's mission is to enhance the scientific understanding of the fundamental biological processes that can ultimately cause inflammation and disease in the skin, hair, and nails.

**Research on a specific skin condition**

Examples: acne, alopecia (hair loss), hidradenitis suppurativa, psoriasis, rosacea

**Training and Education Fund**

The Training and Education Fund supports fellows and other trainees. It allows us to teach them how to manage complex dermatologic conditions and to train them in research techniques.

**Other**

If you have another area of interest, or would like to give on behalf of specific physician or their research, please specify how you would like your gift directed.
