“Reverse Shoulder Replacement”

Thursday, November 30, 2017
6:45 am - 7:45 am
Massachusetts General Hospital
O’Keeffe Auditorium
Lawrence V. Gulotta, MD is a shoulder surgeon at Hospital for Special Surgery (HSS) specializing in arthroscopic and open surgery of the shoulder and sports injuries of the shoulder. He is also the Director of Research of the Sports Medicine & Shoulder Service, the Director of the HSS Shoulder Fellowship, the Co-Director of the Leon Root Motion Analysis Laboratory at HSS, and an Assistant Professor of Orthopaedic Surgery at Weill Cornell Medical College in New York City.

Dr. Gulotta attended Johns Hopkins University, where he studied biology and played varsity football. He was recognized with several academic and athletic honors and was inducted into Phi Beta Kappa and named to the GTE Academic All-American Football Team his senior year. Dr. Gulotta earned his medical degree from Harvard Medical School and then completed his residency at HSS, where he trained in orthopedic surgery, sports medicine, and shoulder surgery. Following his residency, Dr. Gulotta acquired further training in shoulder surgery at specialized centers across Europe. He completed an AO Shoulder Trauma Fellowship in Bern, Switzerland and also observed renowned shoulder surgeons in Zurich, Switzerland, and Lyon, France. His diverse training has enabled him to perform cutting-edge arthroscopic and open surgeries for the treatment of shoulder instability, labral tears, shoulder replacements, large rotator cuff tears, revision shoulder surgeries, and shoulder fractures.

Dr. Gulotta is also interested in athletic injuries of the shoulder. During his training, he served as an Assistant Physician for the New York Giants, Iona College Athletics, the FDNY semi-professional Football Team, and the New York City Public Schools Athletic League.

Dr. Gulotta has dedicated his career to understanding and treating shoulder conditions. He has performed research on innovative ways to improve rotator cuff healing, as well as ways to improve the design and performance of shoulder replacements. He has received several awards for his research, authored numerous clinical and basic science research papers, and given presentations at national and international meetings.

Dr. Gulotta is a member of the American Shoulder and Elbow Surgeons Society, the American Orthopaedic Society for Sports Medicine, and the American Academy of Orthopaedic Surgeons. He currently serves as a reviewer for the Journal of Bone and Joint Surgery, the Journal of Shoulder and Elbow Surgery, Clinical Orthopaedics and Related Research, and the Journal of Orthopaedic Research. He is also on the Editorial Board of the HSS Journal.

6:45 am Welcome
