Associate to Diagnosis (DX) Use Research Exam or Research Patient

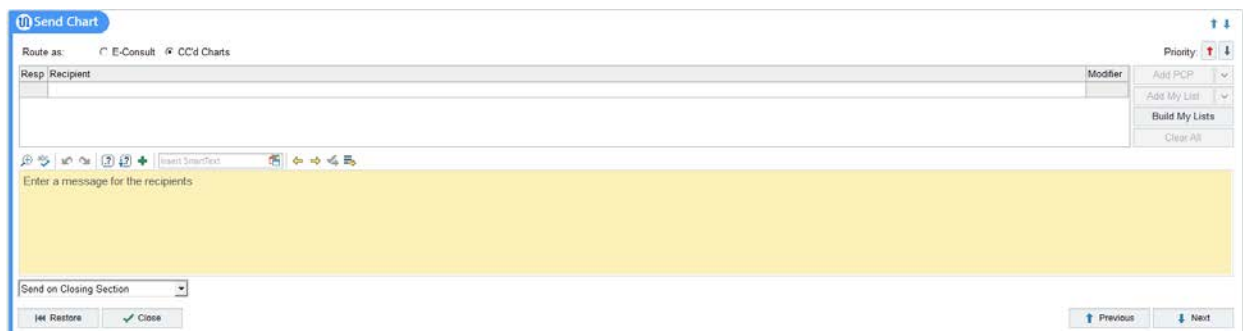

The screenshot shows the 'Associate Dx' interface. A red arrow points to the 'Options' dropdown menu. Another red arrow points to a text box that says 'Research Associate by Clicking drop down next to Options'. The interface includes a search bar with 'Per protocol: cosign required', a 'During visit' section with 'DSW bolus 3 mL' and 'Starting Today at 0838, For 1 day', and a pharmacy address: 'Walmart Pharmacy 2057 - RINDGE, NH - 750 US HWY 202, 603-899-6965'. At the bottom, there is a 'PEND' status and a 'SIGN ORDERS (1)' button.

Select **Pend** – do not Sign

Send Chart to MD for signature (Select **CC'd Charts**- Note the default is E -consult)

Add the PI's name as Recipient.

The screenshot shows the 'Send Chart' interface. It has a 'Route as:' section with 'E-Consult' and 'CC'd Charts' options. Below this is a 'Resp Recipient' field with a 'Modifier' dropdown. To the right, there are buttons for 'Add PCR', 'Add My List', 'Build My Lists', and 'Clear All'. A large yellow text area is labeled 'Enter a message for the recipients'. At the bottom, there is a 'Send on Closing Section' dropdown, a 'Restore' button, and a 'Close' button. Navigation buttons for 'Previous' and 'Next' are also present.

Use **Send on Closing Section** and Click Close

The PI will get a message in his In Box to sign order
