

Making Sense of Parkinson's Disease

Date: Wednesday, April 19, 2023

Time: 12–1 pm (Eastern Time)

April is Parkinson's Awareness Month. As the number of people with Parkinson's disease continues to rise worldwide, there is a growing need to better understand and treat it. In this talk, Dr. Albert Hung will review the symptoms of Parkinson's disease, how it is diagnosed, and what is understood about its causes. He will also discuss current approaches to treating and living well with Parkinson's disease.

Featured Speaker: Albert Hung, MD, PhD

Dr. Hung is a neurologist and movement disorders specialist at Mass General. He is the Director of the MGH Parkinson's Foundation Center of Excellence, Associate Director of the MGH Movement Disorders division, and Assistant Professor of Neurology at Harvard Medical School. He specializes in the care of patients with Parkinson's disease, and his research is focused on identifying new therapies for it.

- This program is free and open to Mass General patients, families, staff, and the general public.
