

The Blum Center & Slavin Academy Education Series

Do Anti-Obesity Medications Help My Heart?

New anti-obesity medications (AOMs) suddenly seem to be everywhere - from Hollywood, to Superbowl commercials, to our doctor's offices. But are they more than just "weight loss medications"? Do they actually improve health? Join Dr. Bhattacharya to discuss the evidence and the science behind these medications as well as their relationship to our heart health.

Date: Wednesday, March 12, 2025

Time: 12:00 PM – 1:00 PM

Location: Blum Center, White 110

This program is free and open to Mass General patients, families, staff, and the general public.

Registration is required as space is limited. To register for this program or for more information, email the Blum Center at PFLC@partners.org or call 617-724-7352.

Featured Speaker: Romit Bhattacharya, MD

Dr. Bhattacharya is a general and preventive cardiologist (heart doctor) at the Massachusetts General Hospital. He is also an Instructor in Medicine at Harvard Medical School, an affiliated researcher at the Broad Institute of Harvard and MIT, and the Associate Director of the Cardiac Lifestyle Program at Mass General. Dr. Bhattacharya's research focuses on comprehensive cardiometabolic risk profiling using a combination of genomic risk and lifestyle risk factors. He also studies novel digital technologies as tools to characterize lifestyle behaviors and to help patients manage disease and health promoting behaviors at home.
