

Health Consequences of Wildfire Exposure in a Climate-Changing World

Date: Monday, March 31, 2025

Time: 12–1 pm (Eastern Time)

Wildfires are increasing in our climate-changing world. Exposure to wildfires is associated with both short term and long term health consequences. This presentation will address the increase in wildfires and specific complex health outcomes related to exposure to wildfires, smoke, and fire with implications for patients, families, communities, and populations.

Featured Speaker:

Patrice K. Nicholas, DNSc, DHL (Hon), MPH, MS, RN, NP, FAAN

Dr. Nicholas is a Distinguished Teaching Professor Emerita and Director Emerita of the MGH Institute of Health Profession's Center for Climate Change, Climate Justice, and Health. She serves as an Yvonne Munn Faculty Scholar at Massachusetts General Hospital.
