

# Dermatology Series

## Skin Cancer and Sun Safety

**Date:** Monday, May 22, 2023

**Time:** 12–1 pm (Eastern Time)

Skin cancer is the most common cancer in the United States and requires expert medical treatment. One in five individuals will be diagnosed with skin cancer in their lifetime. In this talk, Dr. Ramone Williams will discuss the warning signs of skin cancer as well as review key steps for skin cancer prevention and sun safety.

### Featured Speaker: Ramone F. Williams, MD, MPhil

Dr. Williams is a dual-fellowship trained Mohs (skin cancer) Surgeon and Cosmetic Dermatologic Surgeon, and is double board certified in Dermatology and Micrographic Dermatologic Surgery. Dr. Williams' clinical interests include micrographic surgery, facial reconstruction, cosmetic excisions, laser, Botox, dermal fillers, chemical peels, and skin of color dermatology. Professionally, Dr. Williams is a member of several associations including the American Academy of Dermatology, the American College of Mohs Surgery, the American Society of Dermatologic Surgery, and the Skin of Color Society.
