## **Director of Pathology Opportunity: Jiahui International Hospital, Shanghai, China**

### **Position Summary**

This role will be responsible for developing the Department of Pathology at Jiahui International Hospital (JIH) in Shanghai, China. The director will also be responsible for the education of junior faculty and for establishing a robust clinical and translational research program. The leader is also expected to build a modern, state-of-the-art Surgical and Clinical Pathology laboratory. Experience at an accredited university medical center preferred.

The candidate will:

- Work closely with the JIH Executive team and Directors of Jiahui International Cancer Center (JICC) to develop international standard services
- Ensure quality patient care in the department and serve as the clinical service chief at JIH
- Work with the Medical Affairs Office to support the general pathology program director as well as any other directors within the department to ensure the success of those programs
- Recruit, train, and mentor clinical professionals
- Oversee the department's robust engagement with local, regional and national organizations, the people of Shanghai and other community stakeholders
- Provide leadership, supervision and is accountable for fulfilling the education, research, clinical, and administrative service missions and values of the department

### **Interested Candidates**

Interested candidates should have a passion for making a change and delivering excellent patient care in China. Strong English language proficiency, spoken and written, is required; Chinese speaking is a plus. Must have good leadership and communication skills, and a willingness to relocate to Shanghai, China.
