MASSACHUSETTS GENERAL HOSPITAL | HST Harvard-MIT Health Sciences & Technology

LURIE CENTER

MASSACHUSETTS GENERAL HOSPITAL | MassGeneral Hospital for Children

Do you or someone you know have an autism spectrum disorder?

Your participation may help us find a connection between **autism** and the **brain**!

The Massachusetts General Hospital is conducting a study investigating the structure and function of the brain of adults, ages 18-40, both with and without autism spectrum disorders. The study includes one screening visit at the MGH Lurie Center, as well as training and either 1 or 2 scanning visits at the MGH Martinos Center for Biomedical Imaging. Participants will be compensated up to $350 for their time.

If you are interested in participating or would like more information, please **contact us** at:
