

Just received results from a prenatal test for Down syndrome?

Did you get a noninvasive blood test, like MaterniT21, Harmony, Panorama or Verifi?
Or a CVS or amniocentesis?

THE PRENATAL CLINIC AT THE MASSACHUSETTS GENERAL HOSPITAL DOWN SYNDROME PROGRAM

The Prenatal Clinic at the Massachusetts General Hospital Down Syndrome Program offers private consultations with expectant parents.

You can meet with many care team experts at the Prenatal Clinic, including:

- Doctors who have expertise in Down syndrome
- A Genetic Counselor who can help you understand the genetics behind Down syndrome
- A Social Worker who can help you find and access services available to you
- An adult with Down syndrome who can help you learn more about the disorder (optional)

Our goal is to provide accurate, up-to-date information about Down syndrome so that you can make an informed decision about your pregnancy. Our care team respects all of your pregnancy decisions and keeps them confidential.
