MGH Research Training and Education Survey

- The survey assists in creating a training program tailored to your job role
- Research training survey is required by all employees in research or research support roles and must be completed after leaving orientation today
- Courses span a variety of topics and may include chemical safety, clinical research conduct, and human subjects training
- The survey can be completed on your smartphone or on a computer

Survey Link:

https://hub.partners.org/research/surveys/training/

Need help accessing the survey? Contact team@hub.partners.org

Research Training Survey

MGH Research Institute Hub

MGH Research Institute Hub / Involvement in Research

Involvement in Research

In your job are you engaged in research? (required)

· Yes

No

(1) Engaged refers to those who are involved in the conduct of research. For example a research fellow, principal investigator, clinical research coordinator or research assistant would be engaged in the conduct research.

In your job do you provide support to people who are actively engaged in research? (required)

Yes

No

EI Supporting research refers to those in an analytical, financial or administrative role. For example a grant administrator supports research by managing finances.

Next >>

Research Misconduct

- Research Misconduct Definition
- Regulatory Driven Process
- Increase in Number of Cases (Pub Peer, Clare Francis)
- Lab Archives/Recordkeeping
- Zero Tolerance

If you encounter research misconduct, immediately contact Robert E. Kingston, PhD, Chief Academic Officer rkingston@mgh.harvard.edu

Anyone who comes forward with a research misconduct allegation in good faith – the Complainant – is considered a whistleblower. MGB is required by federal regulation to protect, and is committed to protecting, individuals against retaliation who bring an allegation to the attention of hospital leadership.

Research Compliance

MGH is committed to a culture of compliance by complying with all applicable federal, state, and local laws and regulations. Essential to its success is the adherence to the highest ethical standards to promote, support, and guide research at the hospital.

The Office of Research Compliance supports the research community by providing

- answers to regulatory, policy, and compliance questions,
- education and training,
- · assessments and audits, and
- guidance on research issues.

We support all areas of research and look forward to partnering with you to create, promote, and sustain a culture of compliance in which MGH continues to be a leader and example.

Transforming Medicine Through Innovation

Research at MGH began over 200 years ago. Today, the Mass General Research Institute is home to the largest hospital-based research program in the United States.

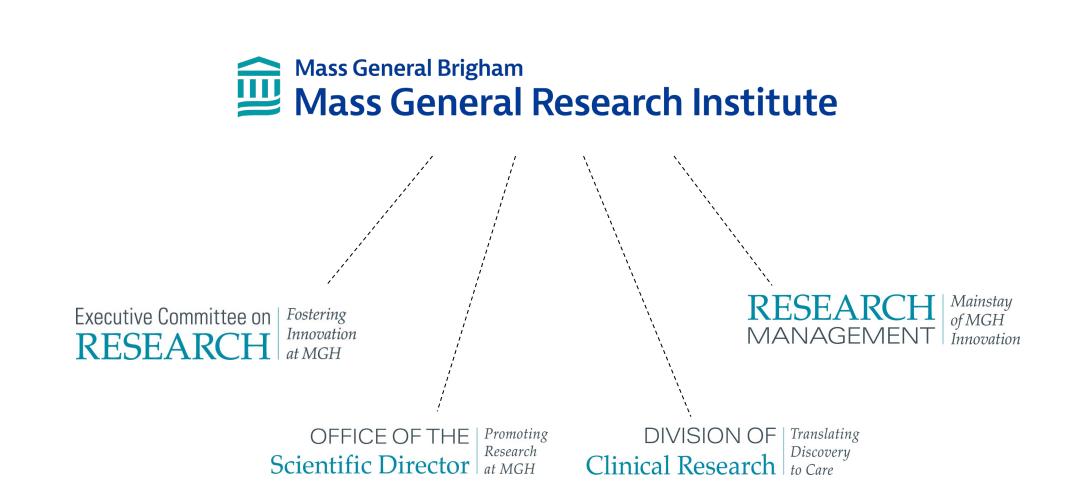

The Mass General Research Institute is:

- A community of 9,500 people working every day to improve healthcare
 - 2,000 principal investigators leading research teams
 - 4,000 scientists and research staff
 - 1,500 research fellows (postdocs)
 - 800 graduate students
 - 1,200 research administrative support staff
- Over 30 Departments, Centers and Institutes
- Annual research revenue/spending of \$1.3 billion
- Over 1.3 M square feet of research space
- FY22: 1,272 patents filed, \$77.5M royalty/license income
- Over 2,000 active clinical trials ongoing
- Over 500 journal publications per month
- 1/3 of all 3,000 MGH clinicians are research PIs

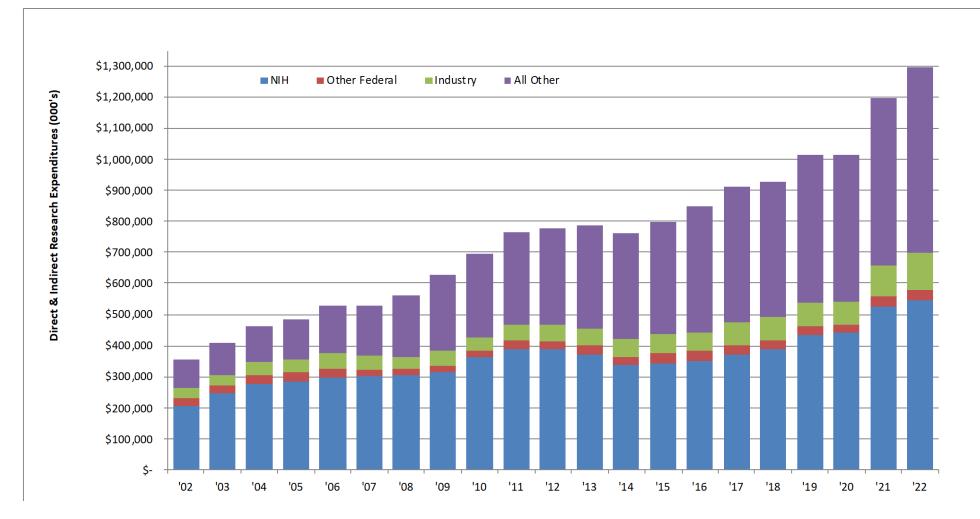

Diriven by Research. Driven by Hope.

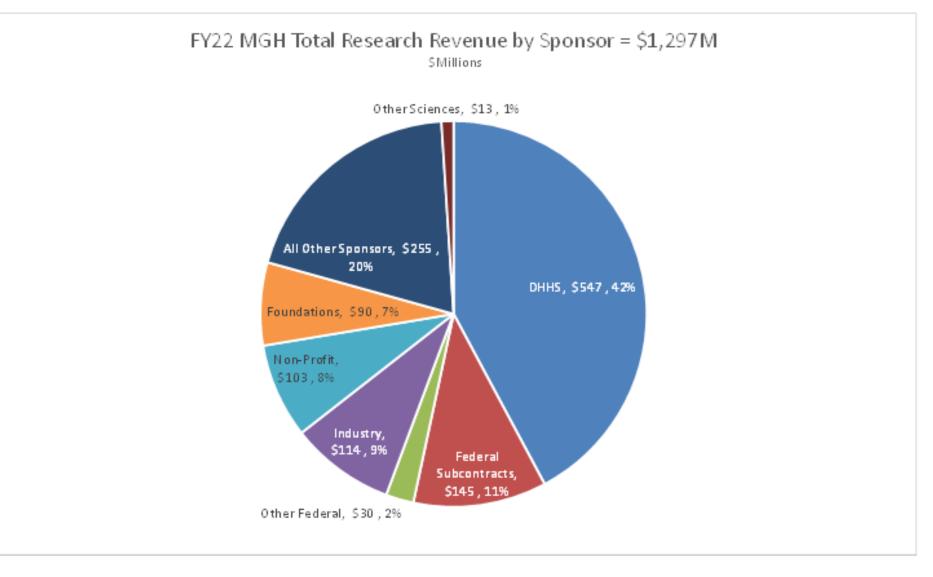

Mass General Total Research Revenue Trend

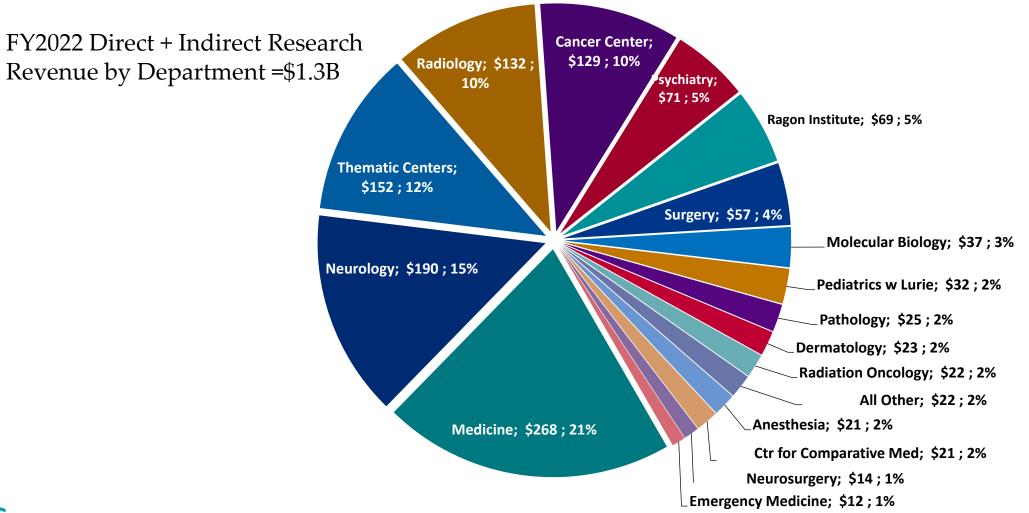

Mass General Research has grown 263% over 20 years to \$1.3B

MGH Total Research Revenue by Sponsor w/ Fed Subs

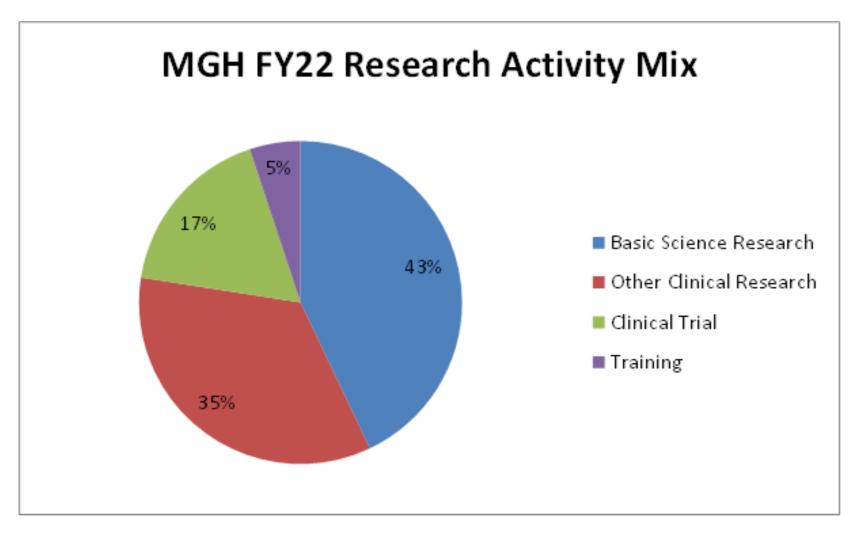

Mass General Total Research Revenue by Department

MGH Total Research Revenue by Activity

FY2022 Direct + Indirect Research Revenue by Activity = \$1,297M

PROMOTE

MGH Research Management

Top "10" Things Every MGH Researcher Should Know!

YOU are a member and an important part of the Research Institute!

The Research Institute was started to support, guide, and promote research at Mass General, and it encompasses all researchers and support staff.

The MGH Research Intranet makes a great homepage! (https://mghresearch.partners.org/)

The Intranet quickly connects you to important research resources, including:

- One-click access to Google, MGB Research Navigator, Insight, PeopleSoft, Ellucid, the MGB Phone Directory, and MGH Cafeteria Menus
- A help and how-to page with over 60 topics
- A comprehensive research resource guide
- The on-call number to speak with a senior research administrator at any time: 617-726-HOW2 (4692)

The Executive Committee on Research (ECOR) website is a resource for internal grants and awards. (http://ecor.mgh.harvard.edu)

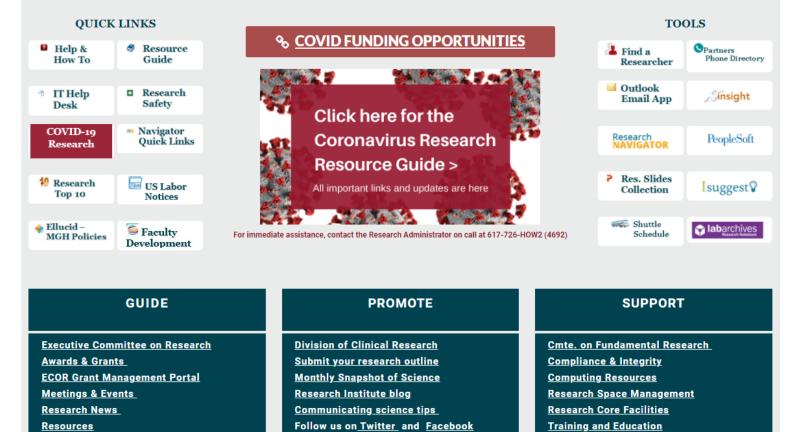

See internal funding opportunities (faculty awards, interim support grants, postdoctoral awards and external award nominations)
