

Cancer and sexual health: support is available

A cancer diagnosis and treatment can cause physical and emotional changes that can impact sexual function. Interventions offered by the Sexual Health Clinic may be able to help. Our goal is to help you maintain or reconnect with your sexual being after cancer. Appointments consist of: assessment, intervention, education, and support.

Call **617-726-6050** or visit one of our front desks to schedule an appointment (Cox LL, Lunder LL2/LL3, Burr Proton Therapy Center). Appointments are available on **Mondays, Tuesday mornings, Wednesdays, and Thursday mornings.**
