Thank you for joining the webinar!

We are admitting audience members from the waiting room  
**Please allow a few moments for the webinar to begin**

# HEALEY ALS Platform Trial

## Community Q&A – September 25, 2025

**Calico**

## Healey & AMG Center

Sean M. Healey & AMG Center for ALS  
at Massachusetts General Hospital

**als**FINDINGaCURE™

THE ARTHUR M. BLANK  
FAMILY FOUNDATION

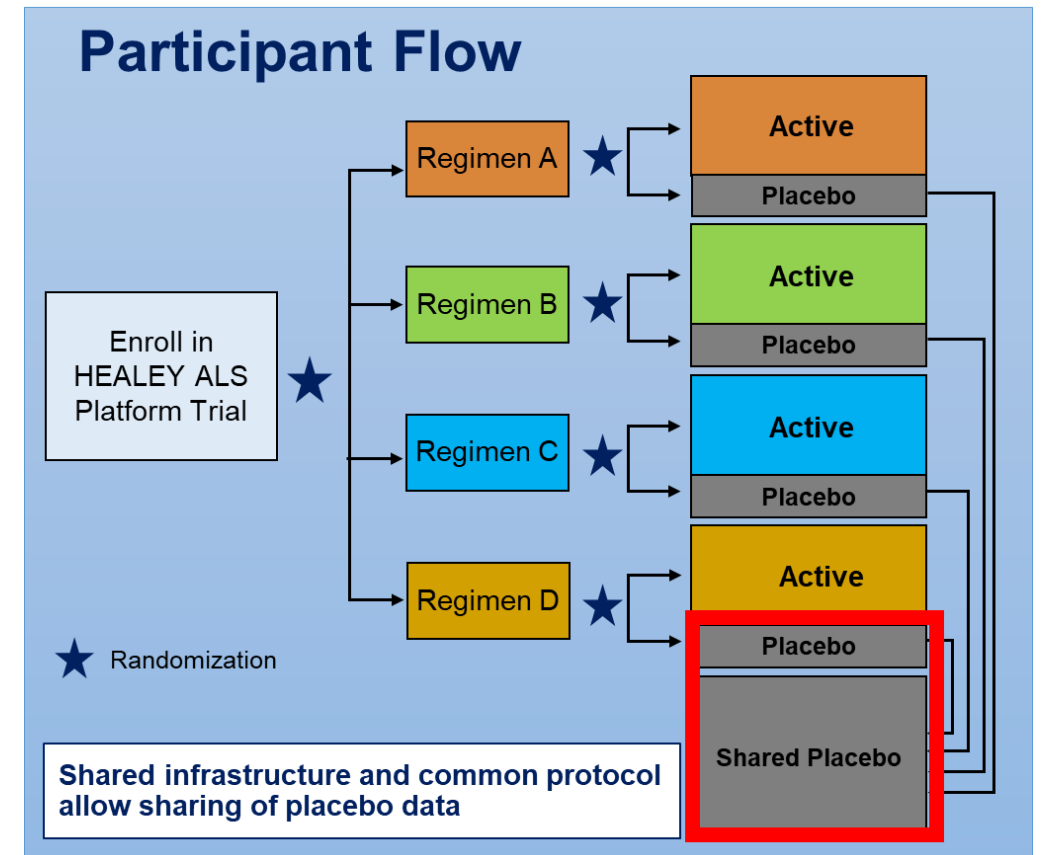

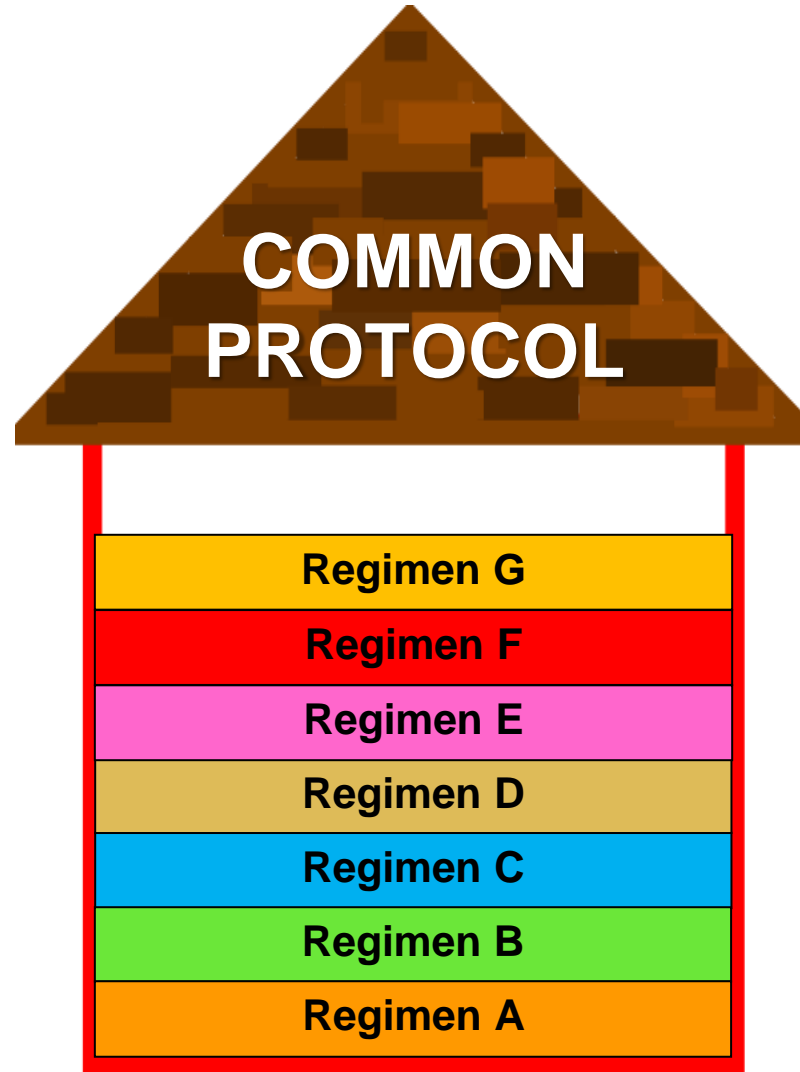

**The AMG Foundation**

# The HEALEY ALS Platform Trial design reduces the number of participants on placebo by sharing placebo data across multiple regimens

*Thank You*

# Platform trials are a unique opportunity to advance science

**DNA** – whole genome sequencing

**Neurofilaments** – for all regimens

**Biomarkers** (Blood, CSF) – several drug-specific biomarkers

**Speech Analysis** – emerging digital biomarker

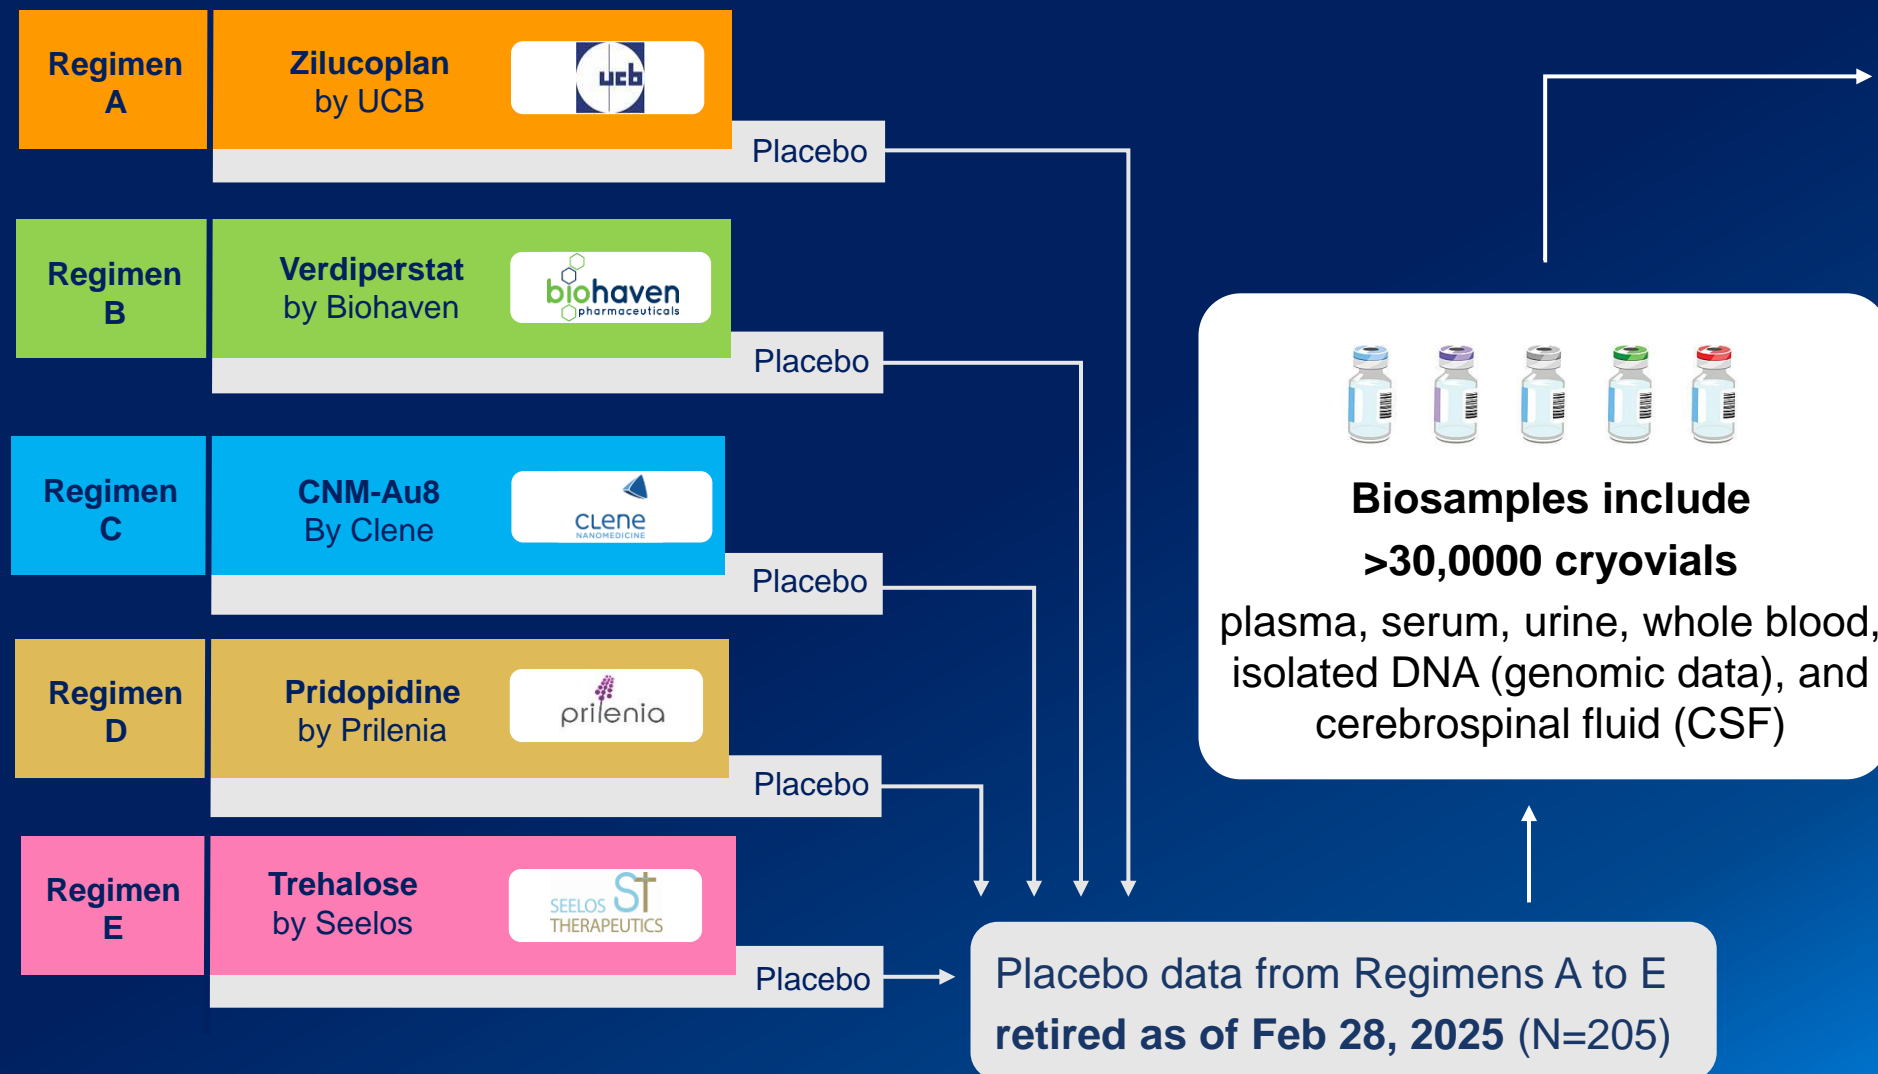

**Home Spirometry** – critical during the pandemic

Additional biomarkers/outcome measures for upcoming regimens (new patient-reported outcomes; PBMCs for stem cell generation)

# Broadening the impact of placebo data from Regimens A - E

## HEALEY ALS Platform Trial

Anonymized data is deposited in PRO-ACT, making it available to researchers by request

# Patient Navigation

## Central resource for people living with ALS
