Clinical trials team considers EUA RDV and clinical trial candidacy

Eligible, willing, and able to enroll in a clinical trial?

Yes

Enrolled in clinical trial?

 Trial includes RDV, or specifically excludes RDV

Supportive care and close monitoring
Repeat labs at regular intervals
If progresses to Tier 1 and becomes candidate for RDV, contact ID consult pager

Any category 2 or 3 risk factors* for severe

No

Yes

Floor

Patient’s location of care

ICU

Consider statin if CV indication
Supportive care, close monitoring, repeat labs at regular intervals
If on remdesivir, follow daily LFTs and eGFR
If not on RDV, may reconsider if progresses and/or continues to qualify via the ID consult pager

Other off-label therapies can be considered with guidance from ID†

Supportive care and close monitoring
Repeat labs at regular intervals
If progresses to Tier 1 and becomes candidate for RDV, contact ID consult pager

Any category 2 or 3 risk factors* for severe

No

Yes

Download RDV information sheet
Obtain and document assent from patient or proxy
If assent documented, write order

Enrolled in clinical trial?§

Trial includes RDV, or specifically excludes RDV

Refer to MGH ICU COVID management guidance
If on RDV, follow daily LFTs and eGFR
Decisions about steroids, off-label hydroxychloroquine, immunomodulatory or other therapies can be considered on a case-by-case basis by the ICU team, with ID guidance

*: See risk factors table (Table 2) in this document
†: Current list of clinical trials is found at this link.
ID strongly recommends referral to clinical trials
‡: Guidance from ID regarding off-label use of HCQ or immunomodulators or compassionate/ emergency use remdesivir is available 8am to 8pm
§: Clinical trials may include RDV, may specifically exclude RDV or allow for open label RDV from EUA or compassionate use. If the trial excludes RDV, the patient may or may not decide to de-enroll should they qualify under the EUA
❖. If not on RDV (eg declined or not qualified earlier in admission), regardless of clinical trial enrollment status, patient may be reconsidered for RDV should they qualify under the EUA.
