

Active Shooter Response Training

WHAT IS ACTIVE SHOOTER RESPONSE TRAINING?

Active shooter incidents are rare events. There is a lower risk of encountering an active shooter in your workplace than being struck by lightning twice in your lifetime. People who train or review what to do in the unlikely event that an active shooter incident were to take place are far more likely to take action. This classes teaches the ins and outs of the Run.Hide.Fight. model developed the by US Department of Homeland Security.
