

Security Awareness and Vigilance for Everyone

SAVE

(a Seminar on Behavioral Analysis and Detecting Suspicious Activity)

WHAT IS SAVE?

MGH Police, Security and Outside Services has implemented a program designed to empower MGH employees to recognize and report suspicious individuals. The Security Awareness & Vigilance for Everyone™ Training System (SAVE) provides an additional, proven layer of security by incorporating behavioral analysis into the employee's daily functions. This no-cost training provides front line employees with the necessary tools to recognize and report high risk individuals. SAVE™ gives the employee the tools to prevent, rather than react.
