

Dermatology Series

“Leaves of Three, Let Them Be”

A Primer on Poison Ivy Dermatitis Prevention and Treatment

Date: Tuesday, April 25, 2023

Time: 12–1 pm (Eastern Time)

Do you look forward to the nice months ahead, but dread the itchy rash that inevitably comes when you come in contact with poison ivy? 80% of people in the United States are allergic to poison ivy. It is one of the leading causes of visits to dermatology, urgent care, and primary care in the warmer months. The goal of this session is to teach you how to detect poison ivy, prevent poison ivy rashes, and how to treat it when it occurs.

Featured Speaker: JiaDe (Jeff) Yu, MD

Dr. Yu is the director of the Mass General Contact and Occupational Dermatitis Clinic. He is currently on the Board of Directors for the American Contact Dermatitis Society and is an active member of the Society of Pediatric Dermatology and Pediatric Dermatology Research Alliance. His research interests focus on allergic contact dermatitis in children.

- This program is free and open to Mass General patients, families, staff, and the general public.
