

Dermatology Series: Multiethnic Haircare

Date: Thursday, July 25, 2024

Time: 12–1 pm (Eastern Time)

Haircare is an important and sensitive topic, especially for people with curlier hair types. In this talk, we will review common treatments for common scalp and facial hair conditions. We will also discuss when to see a doctor and how to prepare for the visit.

Featured Speaker: Yoseph Dalia, MD, MBA

Dr. Dalia is a board-certified dermatologist (doctor of skin, hair, and nails) at Mass General. In addition to general dermatology, he has an interest in diseases that disproportionately affect skin of color. He is also dedicated to patient advocacy and works to change healthcare policies to better treat underserved patient populations.

- This program is free and open to Mass General patients, families, staff, and the general public.
