

Screening for Breast Cancer

Date: Wednesday, October 11, 2023

Time: 12–1 pm (Eastern Time)

Breast cancer screening is important because it can help detect breast cancer early, when treatment is more effective. Which imaging tests are used for screening? When should women begin screening, and how often should women be screened? Join Dr. Manisha Bahl to learn more and to answer your questions about screening for breast cancer.

Featured Speaker: Manisha Bahl, MD, MPH, FSBI

Dr. Bahl is a Breast Imaging Radiologist at Mass General, an Associate Professor of Radiology at Harvard Medical School, and a Fellow of the Society of Breast Imaging. Her research focuses on the use of artificial intelligence to improve outcomes in women with early-stage breast cancer and high-risk breast lesions. She has given more than 100 invited lectures and is an award-winning teacher and mentor.

- This program is free and open to Mass General patients, families, staff, and the general public.
