

Disability Education Series

Current Updates in Down Syndrome

Date: Wednesday, October 25, 2023

Time: 12–1 pm (Eastern Time)

In this talk, Dr. Stephanie Santoro will provide an overview of Down syndrome, considerations for medical care for patients with Down syndrome across the lifespan, and resources for patients, families, and caregivers at Mass General and within the local community. Recent research advances and current clinical trials for Down syndrome will also be shared. This presentation is in recognition of Down Syndrome Awareness Month.

Featured Speaker: Stephanie L. Santoro, MD

Dr. Santoro is the Director of Quality Improvement Research at the Mass General Hospital Down Syndrome Program and an Assistant Professor in Pediatrics at Harvard Medical School. As a pediatrician-trained clinical geneticist, she has devoted her career to the health of individuals with genetic syndromes. Down syndrome is her primary genetic syndrome of focus and area of clinical expertise to which she is passionately dedicated.

- This program is free and open to Mass General patients, families, staff, and the general public.
