

THE MAXWELL & ELEANOR BLUM PATIENT AND FAMILY LEARNING CENTER

Online Blum Center Programs: Dermatology Series

The Blum Center has moved our programs online using a platform called Zoom. All programs are free and open to MGH staff, patients, and the general public.

To attend a specific program, click on the link provided for each one.

Updates on Atopic Dermatitis: From Sunflower Oil to Dupilumab

Tuesday, January 26, 2021

12:00PM - 1:00PM

Link to attend: <https://partners.zoom.us/j/85160638090>

Atopic dermatitis, commonly known as eczema, is a chronic itchy skin condition that affects 10-20% of the US population. In this talk, Dr. Jeff Yu will discuss the symptoms and causes of eczema. He will also cover treatment options ranging from alternative to conventional medical treatments. Whether you are a patient with eczema, a caregiver of someone with eczema, or someone interested in learning more about it, this talk will provide you with up-to-date information on this chronic condition.

COVID Related Skin Findings

Thursday, February 4, 2021

12:00PM - 1:00PM

Link to attend: <https://partners.zoom.us/j/84970368809>

COVID-19 has a variety of different skin findings. Please join Dr. Esther Freeman to learn about the different ways that COVID-19 can appear on the skin, and understand more about what these virus-related skin findings may mean for the rest of the body.

Dermatology Series (continued)

Fifty Shades of Brown

Tuesday, March 23, 2021

12:00PM - 1:00PM

Link to attend: <https://partners.zoom.us/j/89990024020>

There are many skin problems that disproportionately affect people with darker skin tones. Please join Dr. Sandy Tsao, board-certified medical, laser, and cosmetic dermatologist and Co-Director of Ethnic Skin of Color, Department of Dermatology, to learn about specific cosmetic concerns for darker skin complexions, skincare tips, and treatment options.

Updates on Psoriasis

Wednesday, April 21, 2021

12:00PM - 1:00PM

Link to attend: <https://partners.zoom.us/j/89192502353>

Psoriasis is a long-term disorder where multiple parts of the body can become inflamed. It affects about 3% of the US population. In this talk, Dr. Flavia Fedeles will give an overview of the signs, symptoms, and diagnosis of the different types of psoriasis. She will also provide the latest guidelines for the management and treatment of psoriasis, including topical and systemic (biologic and non-biologic) medications.

Skin Cancer and Sun Protection

Monday, May 24, 2021 (new date)

12:00PM - 1:00PM

Link to attend: <https://partners.zoom.us/j/85620771152>

May is Skin Cancer Awareness Month. Skin cancer is the most common cancer in the US. It is also one of the most preventable types. As you start to peel back the winter layers to enjoy the start of summer, join Dr. Shinjita Das to learn more about sun protective measures, different forms of skin cancers, and when to see your doctor about a concerning skin lesion.

The Dermatology Series is a collaboration between the Maxwell & Eleanor Blum Patient and Family Learning Center and Department of Dermatology.
