

THE MAXWELL & ELEANOR BLUM PATIENT AND FAMILY LEARNING CENTER

The Myths and Facts of Gluten Related Disorders

Come join Maureen Leonard, MD, MMSc, and Stephanie Harshman, PhD, RD, LD, for a talk on the two most common gluten related disorders, celiac disease and non-celiac gluten sensitivity. They will review the common misconceptions, signs and symptoms, diagnosis, and management of these disorders.

This online program is free and open to MGH staff, patients, and the general public.
