

THE MAXWELL & ELEANOR BLUM PATIENT AND FAMILY LEARNING CENTER

Current Approaches for Colorectal Cancer Screening

Colorectal cancer remains the second leading cause of cancer-related deaths in the United States. Everyone should be screened for colon cancer, and there are many effective options available. Understanding your specific risk for colon cancer can help guide your choice of screening test. Join Dr. Daniel Chung to learn more!

This online program is free and open to Mass General staff, patients, and the general public.
