

THE MAXWELL & ELEANOR BLUM PATIENT AND FAMILY LEARNING CENTER

The ABCs of Viral Hepatitis

Please join us in recognition of **Hepatitis Awareness Month** to learn the ABCs of viral hepatitis!

Hepatitis A, B, and C are the most common forms of viral hepatitis in the United States. In this webinar, Lindsay Ventura will review how these different viruses are spread, symptoms of each virus, available treatments, the importance of being tested, and prevention options.

This online program is free and open to Mass General staff, patients, and the general public.

To attend this program, click on this link:
<https://partners.zoom.us/j/85919785097>

Please submit questions you may have about the topic before the program to: PFLC@partners.org so that the speaker may address them during the session.

Featured Speaker: Lindsay H. Ventura

Lindsay is a Senior Clinical Research Coordinator for the Liver Center at Mass General. Before joining the team, she worked as the Community Outreach and Education Manager for the American Liver Foundation, as a member of both local and national staff. Lindsay's passion for supporting people with liver disease arises from her own experience as a patient with hepatitis C and as a caregiver for her mother before, during, and after her life-saving liver transplant.

Date: Wednesday, May 18, 2022

Time: 12:00 PM - 1:00 PM
