

## Climate Change and Health Series

### Climate Change and Extreme Heat in 2023: The Heat Wave of the Future and Ways to Protect Against Heat

**Date:** Wednesday, September 6, 2023

**Time:** 12–1 pm (Eastern Time)

In 2023, extreme heat has soared throughout the United States and globally in a climate-changing world. Learn more about how climate change is impacting heat and people's health worldwide. We will also explore strategies to protect yourself and your family against heat-related illness and heat stroke.

- This program is free and open to Mass General patients, families, staff, and the general public.
