---

**Organization Name:** Massachusetts General Hospital  
**Address:** 101 Merrimac Street  
**City, State, Zip:** Boston, Massachusetts 02114  
**Website:** massgeneral.org/cchi  
**Contact Name:** Joseph Betancourt, MD, MPH  
**Contact Title:** Senior Vice President, Equity & Community Health  
**Contact Department (Optional):** MGH Center for Community Health Improvement  
**Phone:** (617) 724-6835  
**Fax (Optional):** (617) 726-2224  
**E-Mail:** jbetancourt@mgh.harvard.edu  
**Contact Address:** 101 Merrimac Street, Suite 603  
(Optional, if different from above)  
**City, State, Zip:** Boston, Massachusetts 02114  
(Optional, if different from above)

**Organization Type:** Hospital  
**For-Profit Status:** Not-For-Profit  
**Health System:** Partners HealthCare  
**Community Health Network Area (CHNA):** Alliance for Community Health (Boston/Chelsea/Revere/Winthrop)(CHNA 19),  
**Regions Served:** Boston, Boston-Charlestown, Boston-East Boston, Boston-North End, Chelsea, Everett, Revere,

## Mission and Key Planning/Assessment Documents

---

### **Community Benefits Mission Statement:**

The MGH Center for Community Health Improvement (CCHI) collaborates with community and hospital partners to improve the health and well-being of the diverse communities we serve.

### **Target Populations:**

Name of Target Population	Basis for Selection
Chelsea Community	Commitment to the Health Center communities served by MGH and to vulnerable populations
Revere Community	Commitment to the Health Center communities served by MGH and to vulnerable populations
Charlestown Community	Commitment to the Health Center communities served by MGH and to vulnerable populations
East Boston Community	Commitment to vulnerable populations

### **Publication of Target Populations:**

Marketing Collateral, Website

### **Community Health Needs Assessment:**

**Date Last Assessment Completed:**

MGH completed its Community Health Needs Assessment in 2019 that was approved by the Trustees Board on Community Health on September 16, 2019.

Mass General participated for the first time ever in three collaborative Community Health Needs Assessment (CHNA) processes in Boston, North Suffolk (Chelsea, Revere, and Winthrop), and Everett-Malden. Previously, Mass General and most providers conducted assessments independently. The goal of collaboration is to develop coordinated strategies as well as solutions that can achieve results.

The communities identified housing quality and affordability and economic stability and mobility, important social determinants of health, among their top four priorities for the first time ever. Substance use disorder remains a top priority, with the new addition of mental health.

In Boston, a first-ever citywide collaborative formed that includes every Boston teaching hospital, the Boston Public Health Commission, community health centers, and community-based organizations (see steering committee members, appendix B). The process was facilitated and guided by Health Resources in Action (HRiA), a non-profit public health consulting group in Boston. The Conference of Boston Teaching Hospitals acted as the “backbone” organization, providing infrastructure support. As a member of the Boston Collaborative steering committee, Mass General helped guide the entire process, including data gathering, analysis, prioritization, and strategy development.

In North Suffolk (Chelsea, Revere, and Winthrop), city and town leaders formed the North Suffolk Public Health Collaborative (NSPHC) to increase their collective impact on improving health. Like Boston, the Collaborative was made up of area hospital systems, health centers, local health departments, and community-based organizations (appendix C). Mass General co-led the North Suffolk CHNA process, overseeing data collection, analysis, and reporting. Mass General also provided technical support for the design of focus groups, key informant interviews, and survey questions.

#### The methods

In each collaborative, participants engaged community organizations, local officials, schools, health care providers, the business and faith communities, residents, and others in an approximately year-long process, tailored to unique local conditions, to better understand the health issues that most affect communities and the assets available to address them. The key methods of the CHNA included:

- Primary data collection via broadly distributed multilingual (up to seven languages) community surveys with 4,298 total respondents; 39 focus groups with 350 community residents in English, Spanish, Chinese, and Haitian Creole; and, 73 key informant interviews with organizational, government, and community leaders.
- Review of secondary data from multiple city, state, and national sources including the U.S. Census, the Massachusetts Department of Public Health, the Boston Public Health Commission, and the Behavioral Risk Factor Surveillance System (BRFSS).
- Rigorous data analysis, including reviewing differences among certain populations, specifically youth and elderly, as well as by race and ethnicity.
- A highly participatory process. In Boston that meant the public was invited to three separate meetings attended by 75-150 people each to guide the process design, review data, select priorities, and develop strategies.

The guiding principle for the Boston, North Suffolk, and Everett-Malden collaboratives is to reduce racial and ethnic health disparities. In all communities, social determinants of health emerged as top priorities, as up to 80% of health status is determined by the social and economic conditions where we live and work. These determinants include access to stable, secure, and quality housing; a job that pays a living wage; healthy food; quality educational opportunities; and, connected and safe communities.

The health priorities that emerged across communities and have been adopted as Mass General priorities were strongly aligned and include:

- Safe, affordable, and stable housing.
- Economic and financial stability and mobility, including living wage jobs and educational pathways.
- Behavioral health, including substance use disorders (SUDs) with an emphasis on youth and families.
- Access to health, social, and child care services.

Mass General has also adopted as priorities:

- Community violence and safety.
- Obesity and food insecurity.
- Elder/Aging Health Issues.
- Chronic diseases, with cancer and diabetes focus.

#### Consultants/Other Organizations

Health Resources in Action provides guidance and facilitation of the Community Advisory Board.

#### **Data Sources:**

#### **CHNA Document:**

[FINAL\\_20190925\\_CHNA-REPORT.PDF](#)

#### **Implementation Strategy:**

**Key Accomplishments of Reporting Year:**

The following are highlights from each of our primary areas:

**Youth Development and Education:**

- 415 students (grades 3 through college) served in MGH Youth Scholars Program.
- 112 youth employed in Virtual Summer Jobs Program.
- 31 Roxbury middle school students mentored in science fair competition.
- 100% MGH Youth Scholars graduated from high school, 90% matriculated to college, 71% persisted in college.
- Launched Youth Healthcare Simulation Program to expose middle and high school students to medical simulated patient care experiences.

**Access to Care for Vulnerable Populations:**

- Community health workers screened 942 patients in respiratory illness clinic for health-related social needs during COVID.
- 5,402 patients served by CHWs; 2,561 CHW and 14,417 medical interpreter encounters completed.
- 130,960lbs. of food, thousands of care kits, distributed through the Food for Families program.
- 347 families received civil legal services, with 104 successful outcomes (eviction prevention, obtaining benefits and other outcomes in process).

**Multi-Sector Coalitions:**

- More than 325,000 care kits, 3 Million masks, 1 Million pounds of food distributed in collaboration with communities during pandemic.
- 1,700 youth and parents engaged in vaping prevention workshops.
- Integrated Referral and Information System launched in Chelsea for parents with children ages 0 – 5.

**Substance Use Disorders**

- 3,299 patients had 39,000 contacts with recovery coaches resulting in reductions of 25% for inpatient admissions and 13% for ER visits.
- 751 patients in Chelsea, Everett, Revere, and Charlestown referred to treatment services.
- 51 providers certified to prescribe suboxone treatment across health centers.
- 188 attendees at 9 community trainings on NARCAN administration in Charlestown.
- 87 youth referred to Revere Substance Diversion Program for therapeutic support.

**Violence & Trauma**

- HAVEN, for survivors of intimate partner abuse, served 690 patients and community members last year
- VIAP (Violence Intervention Advocacy Program) served 138 victims of gun, knife or other physical violence
- 59 children/families referred to Police Action Counseling Team (PACT) Center for Gun Violence Prevention expanded simulation trainings to physician assistant and medical student programs.

**Plans for Next Reporting Year:**

In 2021, CCHI plans to work with communities and the hospital to address health priorities identified through two community engagement processes that will support our Determination of Need filing. The data collected through this 2021 community engagement data collection process will serve as the foundation for the Boston and North Suffolk Collaborative’s joint 2022 Community Health Needs Assessment. Based on data collected from this 2021 process, Mass General will work with our Community Advisory Board (CAB) and the Boston and North Suffolk Collaboratives to select priorities and strategies that will be funded by Determination of Needs (DoN) dollars.

**Self-Assessment Form:**

[Hospital Self-Assessment Update Form - Years 2 and 3](#)

**Community Benefits Programs**

**Center for Gun Violence Prevention**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	Gun violence kills nearly 40,000 Americans every year; more than 100,000 people suffer non-fatal gunshot wounds, and the associated trauma affects hundreds of thousands more, making it a public health problem of epidemic proportions. Firearm-related injuries and deaths are the result of four types of violence: suicides, mass shootings, other homicides and assaults, and accidental shootings. While easy access to firearms is the common link for both homicide and suicide, each type of violence has distinct root causes and opportunities for intervention. Massachusetts General Hospital recently launched a hospital-based interdisciplinary and

collaborative center dedicated to advancing the safety and health of children and adults through injury and gun violence prevention research, clinical care, education and community engagement. The Center is dedicated to working with community partners, public health researchers, public officials and community leaders across the region to better understand and combat violence.

**Program Hashtags**

Community Education, Prevention, Research,

**Program Contact Information**

Dr. Peter Masiakos, 617-726-8839, pmasiakos@partners.org; Dr. Chana Sacks, csacks@partners.org

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Educate physicians & all members of the care team in the field of gun violence prevention, empowering healthcare providers with tools to discuss this issue with patients in a culturally competent way.	We have regular simulation training sessions incorporated in residency training programs across the MGH & have recently expanded efforts to include medical students & physician assistant students.	Process Goal	Year 1 of 3
Develop a partnership w/ Emerson College to explore the potential of multimedia to provide educational tools to reframe conversations about firearm-related violence & amplify the voice of survivors.	Launched & completed the first course at Emerson College, in which students learn about firearm related violence & create & produce videos that highlight impact of gun violence on Boston community.	Process Goal	Year 1 of 3
Develop and advance campaigns regarding safe firearm storage and recognizing warning signs.	Developed gun lock distribution prog. -gun locks are provided in primary care offices & other clinical sites. Plan to expand this prog. to incl. the Emergency Dept & other in-patient clinical sites.	Process Goal	Year 1 of 3
Develop a community based participatory research model to ensure the Center's research efforts are designed to meet community needs.	The Center is exploring community-academic research partnerships to 1) improve resources available for survivors of firearm-related violence & 2) recognize older adults at risk for firearm suicide.	Process Goal	Year 1 of 3

**Center for Immigrant Health**

**Program Type**

Access/Coverage Supports

**Program is part of a grant or funding provided to an outside**

No

<b>Organization</b>	
<b>Program Description</b>	The MGH Center for Immigrant Health fosters excellence in clinical care, education, advocacy and research to improve the health and wellbeing of immigrants, across all departments and clinical sites at MGH and within the broader community.
<b>Program Hashtags</b>	Community Education, Community Health Center Partnership,
<b>Program Contact Information</b>	Fiona Danaher â€” Director, MGH Center for Immigrant Health, 125 Nashua Street, 8th floor

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Resource Development and Navigation: Provide outreach and guidance to help immigrant patients, staff, and their families navigate access to hospital and community resources.	Hiring Immigrant Health Resource Specialist. Working with partners to streamline legal referrals; Collaborating on MGH Meds To Go program; Facilitating referrals from Migrant Clinicians Network.	Process Goal	Year 1 of 3
Mental Health Programming: Develop mental health programming to address resettlement acculturation stressors, and trauma and isolation experienced by some members of the immigrant community.	Identified psychiatry clinical champion. In the process of establishing a working group and hiring a Licensed Independent Clinical Social Worker (LICSW).	Process Goal	Year 1 of 3
Food and Nutrition Program: Develop culturally informed nutrition programming to address food insecurity and risk factors for obesity.	Met with potential collaborators and establishing culturally/linguistically appropriate referral networks.	Process Goal	Year 1 of 3
Met with potential collaborators and establishing culturally/linguistically appropriate referral networks.	Hosted conference, Know Your Rights training, & series of educational opportunities. Disseminated information on best practices to MGH employees. Developing immigrant health elective for residents.	Process Goal	Year 1 of 3
Hosted conference, Know Your Rights training, & series of educational opportunities. Disseminated information on best practices to MGH employees. Developing immigrant health elective for residents.	Hosted annual, week-long Migration is Beautiful campaign. Participated in diversity & inclusion taskforces and recruitment efforts for Under-Represented in Medicine (URM) residency candidates.	Process Goal	Year 1 of 3

## MGH CHA Office Based Addiction Programs

<b>Program Type</b>	Community-Clinical Linkages
<b>Program is part of a grant or funding provided to an outside organization</b>	No

<b>Program Description</b>	The Office Based Addiction Treatment Program (Suboxone Program) provides nursing case management and support for patients with substance abuse disorders, specifically opioid addiction. This program provides an innovative approach to substance use disorder treatment within the primary care practice.
<b>Program Hashtags</b>	Community Education, Community Health Center Partnership, Health Screening,
<b>Program Contact Information</b>	Ann-Marie K. Duffy-Keane, MPH

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
To provide supportive nursing case management.	In FY20, the program provided case management and support services to 150 patients from Chelsea, 57 patients from Everett, 208 patients in Revere, and 336 patients in Charlestown.	Outcome Goal	Year 1 of 3
To encourage patients to participate in individual or group counseling as part of their recovery process.	100% of patients (694) are referred to treatment with the health centers or the community.	Process Goal	Year 1 of 3
Increase the numbers of Primary Care Providers (PCP) who prescribe suboxone.	Currently there are 51 providers at the health centers who prescribe. MGH Charlestown â€" 12 PCPs, 1 NP; MGH Chelsea â€" 10 PCPs; MGH Everett - 5 PCPs; and MGH Revere â€" 23 PCPâ€™s.	Outcome Goal	Year 1 of 3

<b>EOHHS Focus Issues</b>	Substance Use Disorders,
<b>DoN Health Priorities</b>	Education, Social Environment,
<b>Health Issues</b>	Substance Addiction-Opioid Use, Substance Addiction-Substance Use,

**Revere CARES**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The Revere CARES Coalition strengthens the health of Revere by: Addressing priorities established by community members; utilizing an environmental approach; advocating for evidence-based, culturally competent strategies, programs and services; and increasing connectedness among individuals and organizations.
<b>Program Hashtags</b>	Community Education, Mentorship/Career Training/Internship, Prevention,
<b>Program Contact Information</b>	Sylvia Chiang

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Increase community capacity to make health-oriented environmental and system changes.	Awarded 13 mini grants totaling \$20K to support programs & environmental changes to make Revere a healthier place to live, incl. hydration station at Beachmont school & empty bowls event.	Process Goal	Year 1 of 3
Increase resiliency and social capital through community connections.	114 residents (increased from 68 in FY19) partook in 4956 Union Capital hours attending events. \$2,825 of rewards were earned by members, plus \$3000 Network leader stipend.	Outcome Goal	Year 1 of 3
Increase youth engagement and empowerment in the schools, coalition and community.	~170 youth in groups, incl. Power of Know clubs (middle & high school), YHLC, & Alumni. YHLC did community mapping project to know tobacco density, income & race. Employed 26 youth for summer jobs.	Outcome Goal	Year 1 of 3
Continue partnership and co-leadership of Revere on the Move (ROTM) with the City's Department of Healthy Community Initiatives	Collaborated with ROTM to mail over 200 seed packets to residents, coordinated 2 community gardens, & held virtual gardening basics workshops; participants received tomato seedling & supplies.	Process Goal	Year 1 of 3
Establish new partnerships and	Continued Catapult participation in 3 labs & 2 direct coaching		

connections to build a stronger workforce development system in the community	sessions led by Boston Foundation. Member of the City's Master Plan steering committee. Leading the MassUP grant (\$650K/3 yrs.).	Process Goal	Year 1 of 3

**Vertex/Youth Health Simulation Program**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	Mass General Hospital's Center for Community Health Improvement Youth Programs in partnership with the MGH's Learning Lab have created the Youth Healthcare Simulation Program which aims to collaborate with Boston Public Schools and community-based organizations to expose middle and high school students to medical simulated patient care experiences through "patient scenarios" in an effort to promote broader awareness of science and a deeper understanding of modern medicine and healthcare.
<b>Program Hashtags</b>	Community Education, Physician/Provider Diversity,
<b>Program Contact Information</b>	Christyanna Egun, Senior Director of Partnerships, Equity and Inclusion, 617 724-2950

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Create and develop thought-provoking, hands-on simulation-based learning opportunities and demonstrations for Boston Public School students and community-based programs in the urban-core	Soft launch occurred on January 11 and we're currently working with internal Youth Programs with plans to expand to external partners in mid-February.	Process Goal	Year 1 of 3

Increase access & awareness for underserved students to Mass General's state-of-the-art Simulation Learning Laboratory where they will interact w/ diverse physicians & learn about healthcare careers.	Beginning to work on engaging and incorporating diverse MGH staff in the Youth Healthcare Simulation Program	Process Goal	Year 1 of 3
Consistently evaluate the program and measure the impact and success of each cohort through a longitudinal study.	Working with both CCHI's Evaluation and MGH's Learning Lab Research team on developing and creating a standard evaluation tool for the program.	Process Goal	Year 1 of 3

**HAVEN (Helping Abuse and Violence End Now)**

<b>Program Type</b>	Community-Clinical Linkages
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The program provides direct services to survivors of intimate partner abuse (patients, employees, community members) and training to MGH providers. Since program inception in 1997, over 9000 survivors have been helped, with 690 served in FY20.
<b>Program Hashtags</b>	Community Education, Prevention, Support Group,
<b>Program Contact Information</b>	Debra Drumm, Director Haven at MGH Telephone: 617-726-7674

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Provide direct services to survivors of intimate partner abuse.	690 survivors were served in FY20, with 505 new referrals made to HAVEN. Of 256 Brief Interventions, 31% were for outreach calls, 23% for safety planning, and 13% for housing/legal services.	Outcome Goal	Year 1 of 3
Provide direct services to survivors of intimate partner abuse.	In FY20, HAVEN advocates had 4,425 contacts with clients. 17% of contacts included emotional support; 10% were for safety planning; 8% were for DV education.	Outcome Goal	Year 1 of 3
Provide direct services to survivors of intimate partner abuse.	In FY20, HAVEN clients reported the following: 71% emotional abuse; 47% physical abuse; 34% isolation; 36% economic abuse; 30% surveillance; 15% property damage; 18% sexual abuse; and 15% stalking.	Outcome Goal	Year 1 of 3

Increase legal services for survivors of intimate partner abuse.	Through a partnership between MGH and Casa Myrna Vazquez, advocates consulted with a lawyer specializing in intimate partner violence 70 times in FY20.	Outcome Goal	Year 1 of 3

**MGH Youth Programs**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	MGH Youth Programsâ€™ mission is to provide youth (grades 3- college) with academic, life, and career skills to expand and enhance their educational and career options. Through the assistance of MGH administrators, faculty, and staff, who volunteer their time, the program provides youth with hands-on experiences, enrichment opportunities, career exploration, employment and mentorship relationships that are connected to Science, Technology, Engineering, and Math (STEM) education. The total of youth served in FY 20 was 415. COVID-19 greatly impacted the number of students that we were able to serve in FY20. Some of our community and school partners had to reduce the size of their programs or in some cases were unable to continue their programs after March 2020. In response to the pandemic, staff needed to pivot immediately from face-to-face programming held onsite at the hospital to virtual sessions held on Zoom. As part of the virtual Summer Jobs Program, students participated in professional development workshops, health equity/disparity discussions and college tours. Students also participated in a one-week, hands-on, intensive health & science curriculum through the Harvard MEDscience Program. Most students were paired with MGH professionals who served as mentors and fostered students career interests. MGH was a top summer employer for youth.
<b>Program Hashtags</b>	Mentorship/Career Training/Internship,
<b>Program Contact Information</b>	Christyanna Egun Director Boston Youth Partnerships Telephone: 617-724-2950

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Serve 1000 youth participating in MGH Youth Programs throughout the academic year and summer months.	In FY20, a total 415 of youth (grades 3-college) were served in the MGH Youth Programs across all core and non-core programs.	Outcome Goal	Year 3 of 3

Employ Boston-area youth at MGH to enhance career experience and exploration	In FY20, MGH employed 112 youth. Due to COVID-19, students participated in a virtual remote learning program that included virtual career exploration sessions and professional development workshops.	Outcome Goal	Year 1 of 3
Engage MGH professionals to provide science fair mentoring support to 7th and 8th grade students from the James P. Timilty Middle School in Roxbury.	In FY20, 45 MGH professionals mentored 31 Timilty students-10 students moved forward to City-Wide competition. We did not have any students move onto the state-wide competition.	Outcome Goal	Year 1 of 3
Ensure and support high school graduation, college matriculation, and continual college persistence for MGH Youth Scholars.	In FY20, 100% of MGH Youth Scholars graduated from high school, 90% matriculated to college, and 71% persisted in college. A total of 101 Youth Scholars Alumni are currently enrolled in college.	Outcome Goal	Year 1 of 3
Ensure and support successful college graduation for participants of the MGH Youth Scholars Program.	In FY20, 19 Youth Scholars Alumni graduated from college-7 college grads are employed full-time & 6 are pursuing and/or enrolled in grad programs. 66 Youth Scholars Alumni have graduated from college.	Outcome Goal	Year 1 of 3

## Boston Health Care for the Homeless Program (BHCHP) at MGH

<b>Program Type</b>	Access/Coverage Supports
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The Boston Health Care for the Homeless Program delivers direct care in multidisciplinary teams in two hospital clinics and over 40 shelters and community sites throughout metropolitan Boston. MGH has been one of those sites for more than 30 years. In CY2020, BHCHP managed 1,174 primary care, mental health, and case management encounters for homeless individuals at MGH. Encounters include visits with primary care providers, behavioral health providers, nurses, and case managers. BHCHP created discharge plans for patients that included a connection to care at a BHCHP clinic, monitoring their care, or enhancing the connection between acute and community care. In addition, there were 1,985 substance use related encounters by our Peer Recovery Coach.
<b>Program Hashtags</b>	Community Health Center Partnership, Prevention, Research,
<b>Program Contact Information</b>	Jim Oâ€™Connell, MD, President BHCHP Telephone: 857-654-1006

### Program Goals:

Goal Description	Goal Status	Goal Type	Time Frame
Ensure access to care to patients living on the street through direct street outreach and access to the Thursday Street Team clinic at the MGH MWIU.	In CY2020, BHCHP managed 1,174 primary care, mental health, and case management encounters for homeless individuals at MGH. Encounters include visits with primary care providers, behavioral health providers, nurses, and case managers. BHCHP created discharge plans for patients that included a connection to care at a BHCHP clinic, monitoring their care, or enhancing the connection between acute and community care. In addition, there were 1,985 substance use related encounters by our Peer Recovery Coach.	Process Goal	Year 1 of 3
Promote services for housed Street Team patients through specialized clinics, home visits, and the use of medical respite as a supportive housing service.	In CY2020, medical and behavioral health clinicians and case managers made 173 home visits to 75 housed patients.	Process Goal	Year 1 of 3
In CY2020, medical and behavioral health clinicians and case managers made 173 home visits to 75 housed patients.	In CY2020, 24% (18/75) of the patients seen in home visits were also admitted to our medical respite facility, the Barbara McInnis House, for the purpose of clinical stabilization and housing support.	Process Goal	Year 1 of 3
Foster further collaboration	In CY2020, BHCHP/MGH nursing liaison made 22 MGH ED visits & 309 MGH inpatient visits to homeless & formerly homeless patients, screening them for admission to Barbara McInnis House.	Process Goal	Year 1 of 3
Foster further collaboration between MGH, MGB, and BHCHP.	In CY2020, 210 patients rec. care-total of 544 med. encounters, 145 mental health encounters, 71 Case Mgmt. encounters & 414 Telemed encounters as part of grant through MGH & Dept. of Mental Health.	Process Goal	Year 1 of 3

**Food for Families**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	Food for Families screens MGH Chelsea patients for food insecurity in the departments of Pediatrics, Obstetrics, and Adult Medicine. The program connects patients with local and federal food resources such as SNAP benefits (formerly known as Food Stamps), the WIC (Women, Infants, and Children) Program, food pantries, and community meal sites. Food for Families also coordinates the MGH Chelsea Food Pantry, which distributes food two days a week out of the health center.
<b>Program Hashtags</b>	Community Health Center Partnership,
<b>Program Contact Information</b>	Yahaira Guzman, Program Coordinator

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Identify patients with food insecurity.	Out of 1,590 referrals to the Community Health Improvement team, 270 involved patients with food insecurity/food needs.	Process Goal	Year 1 of 3
Out of 1,590 referrals to the Community Health Improvement team, 270 involved patients with food insecurity/food needs.	In FY20, 298 contacts were completed, of which 196 (66%) were for SNAP application assistance. 8 emergency food vouchers were distributed.	Outcome Goal	Year 1 of 3
Provide food to families through the MGH Chelsea food pantry and connect families in need to the food pantry.	In FY20, 164 families attended the MGH Chelsea food pantry, receiving over 130,960 lbs. of food. 40 new families registered for the food pantry; 36 (90%) families were under 185% of the poverty level.	Outcome Goal	Year 1 of 3
In FY20, 164 families attended the MGH Chelsea food pantry, receiving over 130,960 lbs. of food. 40 new families registered for the food pantry; 36 (90%) families were under 185% of the poverty level.	MGH Chelsea Food Pantry collaborated with the City of Chelsea to order over 1 million lbs. of food.	Process Goal	Year 1 of 3

**Healthy Chelsea**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	Yes
<b>Program Description</b>	Healthy Chelsea is a community coalition focused on improving the overall health of Chelsea residents of all ages. Our mission is to engage all sectors of the community to promote healthy choices and development, decrease the effects of toxic stress and prevent substance misuse through a variety of prevention, education, advocacy and policy efforts. Healthy Chelsea is currently comprised of approximately 75 community leaders, organizations, and residents. For more information, visit Healthy Chelsea's website at <a href="http://www.healthychelsea.org">www.healthychelsea.org</a>
<b>Program Hashtags</b>	Community Education, Community Health Center Partnership, Prevention,
<b>Program Contact Information</b>	Jennifer Kelly

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Improve the overall physical health of Chelsea residents, especially youth, by increasing opportunities for both healthy eating and active living throughout the community	Partnered with City to co-lead the Pandemic Food Assistance team. Approx. 26,000 boxes (~500,000 lbs.) of food have been generated in partnership with MGH, the City, and Greater Boston Food Bank.	Outcome Goal	Year 1 of 3
Increase youth engagement and empowerment in the schools, coalition and community.	Provided vaping edu. to ~1040 youth in North Suffolk. Engaged 26 youth in the Teen Action Project and Youth Food Movement groups; topics included civil unrest, voting, Census, & stress management.	Outcome Goal	Year 1 of 3
Improve the developmental health of children ages 0-5 years through a collective impact Improve the developmental health of children ages 0-5 years through a collective impact approach	Launched Integrated Referral and Information System with 14 partners. IRIS shows when a referral is completed, meaning they accessed a service-67% (42) of total referrals were completed.	Outcome Goal	Year 1 of 3

Promote social and emotional wellness by fostering resilient communities and building equitable, accessible, and supportive systems of care	Led Mental Health, Trauma & Substance Pandemic Response Team with 24 members. Created 2 workflows for hospital & community to help parents find caregivers in response to fears of getting COVID.	Outcome Goal	Year 1 of 3
Increasing community collaboration, communication and access to services	Almost 12,000 users visited Ourchelseama website page where events/resources are promoted, including COVID info. Weekly newsletters were sent out to 3,268 contacts about upcoming events/resources.	Outcome Goal	Year 1 of 3

## MGH Revere Adolescent Health Initiative

<b>Program Type</b>	Direct Clinical Services
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	MGH Revere School Based HealthCare Center (SBHC), Adolescent HealthCare Center (AHC), and Revere HealthCare Center (RHC) provide care to teens and young adults. The SBHC and AHC are located at the Revere High School allowing us to increase student access, promote healthy lifestyles while engaging youth in their own care. The MGH Revere Youth Zone (YZ), located at 300 Broadway, is a no cost afterschool program for at-risk-youth, 9-17 years of age. It has been a great challenge to access freshman & new students to RHS during remote schooling. During the COVID-19 pandemic, two peer leaders have continued to work remotely. The Revere High School Substance Diversion Program is currently writing a survey on youth and

vaping during the pandemic. Our next project is developing and delivering a PSA on the same topic.

<b>Program Hashtags</b>	Not Specified
<b>Program Contact Information</b>	Debra Jacobson; Kerstin Oh, MD;

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
To replace punitive responses to substance use among high school students with a new substance diversion program: screening interviews, psychoeducational workshops, & appropriate therapeutic referrals.	The Revere High School Substance Diversion Program has had to evolve with changes imposed by the pandemic. To date 87 youth had been referred, with no new referrals since remote school initiated.	Process Goal	Year 1 of 3
Increase adolescent and young adult access to confidential, free or low-cost reproductive health care as well as urgent medical care and mental health services.	SBHC/AHC provided care to 281 students, with 2138 total visits. These visits incl. urgent care, confidential reproductive care & mental health visits.	Outcome Goal	Year 1 of 3
To provide a free, safe environment for youth (ages 9-17) in the city of Revere to develop healthy lifestyle skills, relationship building skills, and mentorship.	MGH Youth Zone served 107 students in 3500 visits. Focused on academic excellence, nutrition, physical activity, & positive peer relationships	Process Goal	Year 1 of 3

**Police Action Counseling Team (PACT)**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The Police Action Counseling Team (PACT) is a police-mental healthcare partnership which teams an MGH Social Work clinician with Chelsea Police officers to provide clinical interventions to children who have witnessed violence or who are victims of violence. Officers are trained to identify children (and sometimes other vulnerable persons) who have witnessed violence at the scenes of police calls. Additionally, the PACT clinician connects children and families to appropriate court, mental health and/or domestic violence services. The clinician also assists with safety planning and provides psycho-education. The goal of PACT interventions is to lessen

the impact of traumatic experiences on the health and mental health of children. Timely interventions aim to facilitate children's active participation in their own well-being, promote resilience and to increase parental knowledge of the symptoms and longer-term effects of trauma. In the latter six months of fiscal year 2020, due to COVID-19 face-to-face clinical contacts were conducted by video conferencing.

<b>Program Hashtags</b>	Community Education, Prevention,
<b>Program Contact Information</b>	Georgia Green, LICSW, MGH Chelsea; Lt. Thomas Dunn, Chelsea Police

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Provide clinical interventions to children who have witnessed violence.	In FY20 police officers referred/collaborated on 59 cases. Of the 59 cases 57% involved suspected child abuse or neglect. 100% of resulting 51A's were filed by police on behalf of minor children.	Outcome Goal	Year 1 of 3
Provide clinical intervention and services to children and parents affected by trauma and domestic violence (DV).	Of the 59 cases 38 cases were directly related to domestic violence. 27% obtained Emergency Restraining Orders (EROs). 76% refused EROs.	Outcome Goal	Year 1 of 3
Provide psychoeducation around increased risks for health and mental health consequences and lethality in high-risk domestic violence populations.	Of the 38 cases directly related to domestic violence, two victims were pregnant. Four adult victims sustained strangulation injuries.	Outcome Goal	Year 1 of 3
Connect children and their families to appropriate resources and services as needed.	PACT provided 25 total referrals: 48% to mental health services and 36% to domestic violence services, i.e. HAVEN. PACT aided with safety planning in 12 cases.	Process Goal	Year 1 of 3

## Legal Initiative for Children (LINC)

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	LINC provides civil legal services for all patients at the MGH HealthCare Center in Chelsea who are referred by their provider or by a community health worker. The program attorney, who is on-site two days a week, provides representation to low-income refugees and immigrants in areas such as disability benefits, housing appeals, guardianship, child support, and assisting in the naturalization process. The ultimate goal of LINC is to improve the health and well-being of low-income families by improving their environmental and social conditions of their families.
<b>Program Hashtags</b>	Community Health Center Partnership,
<b>Program Contact Information</b>	Laura Maslow-Armand, Esq., Lawyers for Civil Rights

### Program Goals:

Goal Description	Goal Status	Goal Type	Time Frame
Provide representation to patient families for areas such as disability benefits, housing appeals, guardianship, child support, and the naturalization process.	In FY20, 347 families received civil legal services. Families had 774 appointments with 104 successful outcomes including eviction prevention and obtaining benefits.	Outcome Goal	Year 1 of 3
Address the complex needs of patients challenged by race, immigration status, poverty, and disabilities.	In FY20, 347 families received civil legal services. Families had 774 appointments with 104 successful outcomes including eviction prevention and obtaining benefits.	Outcome Goal	Year 1 of 3
Engage in a broad range of advocacy and representation in close collaboration with the health care team.	The program attorney works with the healthcare team to engage in advocacy: representing patients in court; negotiating with landlords; appearing before administrative bodies to obtain public benefits.	Process Goal	Year 1 of 3

## Medical Interpreter and Community Health Worker Services

<b>Program Type</b>	Access/Coverage Supports
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	Provides professional language and community health worker services to MGH Chelsea patients. Program staff facilitates communication between limited English proficient patients and providers, serve as patient advocates, and help patients navigate the healthcare system.
<b>Program Hashtags</b>	Community Education, Community Health Center Partnership,
<b>Program Contact Information</b>	Silvestre Valdez, Manager

### Program Goals:

Goal Description	Goal Status	Goal Type	Time Frame
Provides professional language and community health worker services to MGH Chelsea patients.	In FY20, approximately 5,402 patients were served. There are 19 staff members who offer 25 different languages.	Outcome Goal	Year 1 of 3
Meet the needs of existing and new patients at MGH Chelsea by bridging the language gap.	The Medical Interpreting/CHW Team reported 14,417 Medical Interpreting encounters and 2,561 Community Health Work encounters. 61% were for Spanish, 10% Portuguese, 11% Bosnian, 18% other.	Outcome Goal	Year 1 of 3
Address patients' social determinants of health by referring them to programs and needed services.	MI/CHWs connected LEP patients to the Complex Patient Population program, the Food for Families Program, LINC (Medical-Legal Partnership), Healthy Beginnings, HAVEN, as well as other community partners.	Outcome Goal	Year 1 of 3
Coordinate with local agencies to provide on-site, telephonic, and virtual interpreters for languages of lesser diffusion.	Local agencies assisted with 11,527 telephonic and virtual encounters.	Outcome Goal	Year 1 of 3

## MGH CHA: Healthy Steps and Home Visiting for Young Children

<b>Program Type</b>	Community-Clinical Linkages
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	Healthy Steps for Children provides timely well child visits/immunizations and increased parental knowledge of child development, healthy eating habits, and obesity prevention. In addition, the program seeks to improve access to care for all patients and their families. Child development specialists in the Healthy Steps program conduct joint office visits with the pediatricians during well child checks for children between the ages of birth and three years. Healthy Steps is offered to all first-time parents bringing their newborns to MGH Revere for pediatric care. Healthy Steps services include extended well-child office visits, lactation support,

child development telephone information line, parent groups, developmental screenings, written information materials for parents that emphasize prevention, links to community resources, and collaboration with Early Intervention. The Healthy Steps Specialists also utilize books and written materials provided by Reach Out and Read to promote early literacy and decrease screen time. The program also works with the Parents as Teachers (PAT) program to promote optimal early development by engaging parents and caregivers. During the COVID-19 pandemic, emphasis was placed on connecting families to concrete resources. HS specialists also provided lactation support and behavioral consults as needed.

<b>Program Hashtags</b>	Community Education, Community Health Center Partnership, Prevention,
<b>Program Contact Information</b>	Jennifer Bronsdon, Program Coordinator

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Provide timely well childcare and developmental surveillance, to improve access for all patients and their families, and to provide additional developmental and behavioral information.	In FY20, Healthy Steps (HS) had 602 families with young children enrolled. HS specialists conducted joint office visits with pediatricians, both in-person and virtually.	Outcome Goal	Year 1 of 3
Provide home-visiting services to families of young children w/ multiple family stressors to focus on supporting family well-being, improving child development & enhancing parent-child interactions.	Parent Educators provided home visits to 32 families & 45 children between 0-5 years; 50% of families had 3+ risk factors. 379 home visits were conducted virtually & in-person; 62 visits incl. fathers.	Process Goal	Year 1 of 3
Provide home-visiting services to families whose primary language is Spanish.	During FY20, the PAT program hired a Spanish-speaking parent educator, who has enrolled four families whose primary language is Spanish.	Outcome Goal	Year 1 of 3

**VIAP (Violence Intervention Advocacy Program)**

<b>Program Type</b>	Community-Clinical Linkages
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The program provides direct services to victims of community violence (stab wounds, gunshot wounds, and assaults), most of whom have come through the MGH Emergency Department. The mission of the program is to assist victims of violence to recover from physical and emotional trauma and empower them with skills, services, and opportunities, so they can return to their communities, make positive changes in their lives, strengthen others who have been affected by violence, and contribute to building safer and healthier communities. VIAP is also a partner in the Boston Hospital Collaborative, a city-wide monthly working group of VIAP programs across the city. MGH VIAP saw the second highest number of patients in the city this past year, second to Boston Medical Center.
<b>Program Hashtags</b>	Community Health Center Partnership, Prevention,
<b>Program Contact Information</b>	Debra Drumm, Director of HAVEN

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Connect and meet with victims of community violence while they are in the hospital and understand the types of violence experienced.	In FY20, 138 victims of community violence were served. Of these cases, 40% involved assault, 28% involved a stab wound, and 33% involved gunshot(s).	Outcome Goal	Year 1 of 3
Provide direct services and referrals to resources to victims of community violence (support and/or referrals for mental health, housing, employment, education, substance abuse, financial, and legal).	In FY20, 343 contacts were provided. These include emotional support, referrals to Victimâ€™s Compensation, safety planning, referrals to housing, education, and employment services.	Outcome Goal	Year 1 of 3
Provided internal and external trainings based on the challenges and strategies for addressing community violence.	VIAP provided trainings to hospital providers, including ED residents, nurses and social workers, and community programs. VIAP is also a member of the multidisciplinary gun violence coalition at MGH.	Process Goal	Year 1 of 3
Increased VIAP visibility through collaboration with community providers.	VIAP participated as a member of the Chelsea and East Boston HUBs (city-wide case management programs for high-risk residents). VIAP also participated in meetings with police and DA departments.	Process Goal	Year 1 of 3

**Immigrant and Refugee School Program****Program Type**

Total Population or Community-Wide Interventions

**Program is part of a grant or funding provided to an outside organization**

No

**Program Description**

The Immigrant and Refugee School Program supports recently arrived refugees and immigrants and their families in integrating into public education. The program strives to serve as a key cultural advisor to all Chelsea Public schools, collaborate with medical and health providers, empower parents to be academic advocates for their children and motivate students to successfully complete high school and attend post-secondary schools. Through community

referrals and collaboration, the program seeks to improve children’s experience and integration in the community. Since 2015 the program has focused on newly arriving immigrant children from Central America. The Immigrant and Refugee School coordinator position was vacant from July 2019 until January 2020. However, shortly after starting their new role, the School coordinator was redeployed due to the COVID-19 pandemic which impacted the number of students and families she was able to serve this fiscal year.

**MGH Comprehensive CHW Program (Health Centers)**

<b>Program Type</b>	Access/Coverage Supports
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The MGH Chelsea Complex Patient Population (CPP) Program is now known as the MGH Health Centers Comprehensive Community Health Worker (CHW) program as the Community Health Improvement (CHI) team has expanded from just MGH Chelsea to all MGH health centers. The Comprehensive program works with MGH health center patients who have barriers to accessing health care resources. Before expanding to all MGH health centers, most Comprehensive patients were immigrants or refugees, who have limited English proficiency, little social support, and/or not familiar with the US medical system. After expansion, the Comprehensive program is now also assisting English-speaking patients in need of health care system navigation. Comprehensive CHWs meet patients where they are at in their care, help create and accomplish goals, access hospital services, make and sustain lifestyle behavior changes, better manage chronic disease, and connect with community resources. COVID-19 directly impacted the Comprehensive team. As essential frontline staff, the majority of CHWs were redeployed throughout MGH to assist with adult medicine departments and in April 2020, to assist with the Respiratory Illness Clinic (RIC). This led to new connections with clinical departments which inspired the CHI team to expand the scope of the Comprehensive program. Now, patients from MGH Chelsea, Revere Broadway, Revere Ocean Ave, Everett, and Charlestown can be referred for assistance with community resources, system navigation, adult care management and pediatric care management. This allows for CHWs to receive the appropriate referrals and better serve patients.
<b>Program Hashtags</b>	Community Education, Community Health Center Partnership, Prevention,
<b>Program Contact Information</b>	Sarah Oo, Director, Community Health Programs, Chelsea HealthCare Center

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Work with MGH patients to address barriers to care.	In FY20, the CPP program was referred 688 new patients and worked with 1,805 in total.	Outcome Goal	Year 1 of 3
Help MGH Chelsea's Respiratory Illness Clinic (RIC) and identify patients with social determinants of health needs	In FY20, CHWs called 942 patients who were seen at the RIC. 278 patients had one or more health-related social needs. The top needs were food insecurity and housing insecurity.	Outcome Goal	Year 1 of 3
Support patients with their health-related goals.	In FY20, 3,285 goals were created with patients. These goals included medication adherence, health motivation, psycho-social needs, and resources. 70% of patient/provider goals were completed.	Outcome Goal	Year 1 of 3
Expand Community Health Worker model to other MGH health centers.	The MGH Chelsea CHWs now offer services to MGH Everett, Revere Broadway, Revere Ocean Ave, and Charlestown.	Process Goal	Year 1 of 3

**Charlestown Family Support Circle (CFSC)**

<b>Program Type</b>	Community-Clinical Linkages
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	<p>Our mission is to provide supportive services to Charlestown youth and families that are at risk or in need of support to ensure all Charlestown youth can develop and grow to reach their full potential.</p> <p>The Charlestown Family Support Circle (CFSC) provides clinical case management and care coordination services to the community. The FSC Clinician is the central referral point for Charlestown families and residents, who have children and youth between the ages of 7-14 years old. The FSC Clinician will work with families to determine their strengths, needs, and goals, as well as provide families' referrals to appropriate services and treatment. Additionally, the FSC Clinician will remain with families until they are connected to community resources while also providing consistent, ongoing, community support. The program also works with Charlestown providers to improve care coordination.</p>
<b>Program Hashtags</b>	Community Health Center Partnership, Prevention, Support Group,
<b>Program Contact Information</b>	Phenice Zawatsky Family Support Clinician Telephone: 617-726-0058

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
The CFSC will provide clinical case management, care coordination services, and stress management to families and individuals.	41 individuals & families were provided with supportive case management and care coordination services. Program met with 90 students at the Charlestown Adult Learning Center.	Outcome Goal	Year 1 of 3
The CFSC task force meets monthly to improve care coordination among Charlestown providers.	Increased to bimonthly due to COVID with avg. 20 providers in attendance. Three families referred to FSC program and 9 families connected to services as a result of meetings.	Process Goal	Year 1 of 3
Strengthen current partnerships and collaborations with area organizations.	Increased number of providers, including healthcare providers, youth serving orgs., schools, and mental health providers, on the task force distribution list from 61 to 66.	Process Goal	Year 1 of 3
CFSC task force meet to determine residents needs and collectively address the needs of the community.	Created/shared family activity handout, shared virtual family activities, participated in race dialogues, shared resources on racism, took tobacco/vaping training, & discussed self-care techniques.	Outcome Goal	Year 1 of 3
Identify Charlestown and surrounding community resources.	During first COVID surge, FSC Clinician shared weekly community updates, COVID resources, Boston resources, & other financial resources.	Process Goal	Year 1 of 3

**MGH Institute of Health Professionals**

<b>Program Type</b>	Access/Coverage Supports
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	<p>MGH Institute of Health Professions is an interdisciplinary graduate school in Boston that prepares its approximately 1,600 full- and part-time students to become skilled health care practitioners who are leaders in the clinical disciplines of nursing, genetic counseling, occupational therapy, physical therapy, physician assistant studies, speech-language pathology, health professions education, and rehabilitation sciences.</p> <p>More than 125 faculty, a majority of whom are practicing clinicians, accomplish this mission by:</p>

integrating academic and clinical curricula; expanding and refining the scientific basis for health care through teaching, research, and scholarship; developing innovative educational methods; developing new models of practice to foster provision of effective, affordable, and ethical health care; and building collaboration with Charlestown and neighboring communities to improve health.

Incorporating classroom learning with research and clinical experience, the MGH Institute grants professional degrees to baccalaureate-educated individuals entering health care from another field, awards certificates of advanced study, and offers continuing education to practicing clinicians.

The Institute is accredited by the New England Commission of Higher Education (NECHE). [www.mghihp.edu](http://www.mghihp.edu); [www.facebook.com/MGHInstituteofHealthProfessions](https://www.facebook.com/MGHInstituteofHealthProfessions); [Twitter@MGHInstitute](https://twitter.com/MGHInstitute); [Instagram.com/mghinstitute](https://www.instagram.com/mghinstitute)

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Provide pro-bono speech, aphasia, occupational therapy, physical therapy, and nursing services to area low-income residents while exposing students to needs of under-represented populations.	IHP students provide more than \$1 million in faculty-supervised free health care to clients who need additional rehab after their insurance has expired.	Outcome Goal	Year 1 of 3
Volunteering in the Charlestown and Greater Boston communities.	More than 300 students each September spend a day at 60 non-profits during Community IMPACT Day. Several student clubs volunteer working with non-profits throughout the year.	Outcome Goal	Year 1 of 3
Treating patients at various health care settings.	Students assist patients (under faculty supervision) at locations that include hospitals, community health clinics, schools, medical practices, Native American reservations and/or foreign countries.	Outcome Goal	Year 1 of 3
Assist Harvard-Kent Elementary School (Charlestown) pupils to improve reading and educate them on the benefits of healthy eating and regular exercise.	Students from all the IHP™s direct-entry academic programs work regularly with pupils as part of a formal working agreement between the two schools.	Process Goal	Year 1 of 3

**Patient Navigation - Cancer**

**Program Type**

Access/Coverage Supports

**Program is part of a grant or funding provided to an outside organization**

No

<b>Program Description</b>	The Cancer Patient Navigation Program, based at the MGH Chelsea HealthCare Center, strives to improve access to cancer care for vulnerable or high-risk patients. The navigators work with patients who need breast, cervical, colon, lung, or other types of cancer screening and help them through the cancer screening process at MGH. In addition, the navigators work with patients with abnormal findings and cancer diagnoses and help decrease barriers to timely follow-up care. During the COVID-19 pandemic, priority was given to COVID-19 patients. The navigators were redeployed to different clinical departments. They assisted clinical staff with PPE, served as administrative assistants in the Adult Medicine department, and supported MGH Chelsea's Respiratory Illness Clinic (RIC). As a result, many navigators served more than just their cancer patients. Additionally, for most of the fiscal year 2020, the MGH Cancer Center was closed, impacting the number of referrals to the Cancer Patient Navigation Program.
<b>Program Hashtags</b>	Health Screening, Prevention,
<b>Program Contact Information</b>	Ali Abdullahi

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Provide navigation assistance to vulnerable patients in need of breast, cervical, colorectal, lung and other types of cancer screening and/or follow-up on abnormal findings.	201 patients received navigation assistance for cancer-related appointments. 2 patients were diagnosed with cancer.	Outcome Goal	Year 1 of 3
Early detection of colorectal cancer amongst patients served through screening.	23 patients were referred specifically for colonoscopies. 7 patients cancelled their colonoscopies due to fear of COVID-19.	Outcome Goal	Year 1 of 3
Connect vulnerable patient populations with Breast Cancer program.	The breast health program served 48 patients. 65% of patients were referred for assistance with screening mammogram while 35% were referred for assistance with diagnostic mammograms.	Outcome Goal	Year 1 of 3

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Increase youth engagement and empowerment in the schools, coalition and community.	40 Turn It Around youth engaged in community events, including providing ~75 Care Kits with winter accessories & hygiene products to those experiencing homelessness. Helped 36 youth get summer jobs.	Outcome Goal	Year 1 of 3
Identify needs and provide resources for substance use disorder services to Charlestown residents and drug court clients.	Navigator worked with 229 clients (increased from 152 in FY19) in recovery or struggling with addiction connecting them with needed resources, including getting into treatment.	Process Goal	Year 1 of 3
Improve and increase communication, collaboration, and partnerships among the Coalition, residents, and community/city organizations and agencies.	Coalition actively posted about resources & services on the website, Facebook, Instagram, Twitter, & YouTube. Created a COVID resource page on their website with over 2,900 users from Mar.-Sept.	Process Goal	Year 1 of 3
Trauma Response Team develops capable community responders to call upon when tragedies occur	36 incidents were responded and/or supported by group, including fatal and nonfatal overdoses, community loss, high risk active addiction, community violence, car accident, & report of child abuse.	Outcome Goal	Year 1 of 3
Increase availability of NARCAN to families and bystanders.	Partnered with the Boston Public Health Commission to host 9 community trainings, with 188 people at the three housing developments, the noon meeting, and the Charlestown Recovery House.	Process Goal	Year 1 of 3

## MGH Substance Use Disorders Initiative-Recovery Coaches

<b>Program Type</b>	Direct Clinical Services
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The MGH Substance Use Disorders (SUDs) initiative was developed in response to community health needs assessments in Chelsea, Revere and Charlestown, where residents identified substance use, particularly opioids, as the single greatest issue in their communities. The MGH SUDs initiative was designed to improve the quality, clinical outcomes and value of addiction treatment for all MGH patients with SUDs while simultaneously reducing the cost of their care. To accomplish this mission, patients must have access to evidence-based treatment that is readily available and standardized across the system. The MGH initiative is focused on re-designing care across the system to meet this goal. Recovery coaches, community health workers for addiction, are assigned to each of our health centers, outpatient addiction clinics, ED and inpatient setting, Boston Health Care for the Homeless, and local correctional facility. They are paired with MGH patients who have been diagnosed with a substance use disorder.
<b>Program Hashtags</b>	Support Group,
<b>Program Contact Information</b>	Elizabeth Powell

### Program Goals:

Goal Description	Goal Status	Goal Type	Time Frame
Pair MGH patients with a SUDs diagnoses with a Recovery Coach.	Recovery coaches have served 3,299 patients and completed over 39,000 contacts with those patients.	Process Goal	Year 1 of 3
Address barriers to accessing services for all SUDs patients.	Recovery coaches helped patients access treatment, provided emotional support, advocacy for legal issues, assistance with housing, transportation, GED programs, and education on overdose prevention.	Process Goal	Year 1 of 3
Change culture and stigma that exists in primary care settings.	Among primary care providers, there has been a 57% reduction in the perception that drug use is a crime and an 11% reduction in the perception that SUDs is a choice, not a chronic disease.	Outcome Goal	Year 1 of 3
Work with patients to engage in outpatient care and avoid hospital admissions.	Utilization data 6 months before and 6 months after recovery coach engagement shows 44% increase in outpatient visits, 25% decrease in inpatient admissions, 13% decrease in emergency dept admissions.	Outcome Goal	Year 1 of 3
Offer peer support opportunities.	Recovery coaches lead 7 different groups which include NA/AA, art groups, and general peer support groups.	Process Goal	Year 1 of 3

**MGH Boys and Girls Clubs of Boston Partnership**

<b>Program Type</b>	Direct Clinical Services
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	MGH has partnered with the Boys and Girls Clubs of Boston (BGCB) to provide nursing staff and a community health specialist to the staff and youth participants of the Boys and Girls Clubs of Boston. The staff focus on providing nursing services and health education to all of the Boys and Girls Clubs, as well as summer camps provided by BGCB.
<b>Program Hashtags</b>	Health Professional/Staff Training, Prevention,
<b>Program Contact Information</b>	Grace Lichaa, MPH, BGCB Director of Healthy Lifestyles glichaa@bgcb.org

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Provide health education to members.	Director of Healthy Lifestyles worked with youth on mental health and healthy relationships. Ongoing education on topics such as stress management, sexual health, and future goal planning.	Outcome Goal	Year 1 of 3

Oversee USDA food access programs across the Clubs	Staff were trained on food safety, USDA, and DOE regulations. Meals were served across all Clubs and started USDA produce box program during COVID 19.	Outcome Goal	Year 1 of 3
Create healthier club cultures with a focus on mental health and physical health of all members and staff.	Conducted trauma training with club and administrative staff. Worked with culinary staff on creatively incorporating produce in menus. Reinforced Health360 policies with reminders and best practices.	Outcome Goal	Year 1 of 3
Conducted trauma training with club and administrative staff. Worked with culinary staff on creatively incorporating produce in menus. Reinforced Health360 policies with reminders and best practices.	Vaping education sessions and discussions created for preteen and teen members. Director of Health Lifestyles attended three morning educational and community sessions on substance use disorder.	Outcome Goal	Year 1 of 3
Support health of student campers at BGCB summer camp.	Community health nurses supported 1,000 summer program members to safely reopen during COVID-19. They assisted with health screenings, reporting, and ensuring staff protocols were safe.	Outcome Goal	Year 1 of 3

**The EASTIE Coalition**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The EASTIE Coalition works to strengthen protective factors and decrease risk factors to prevent substance use and abuse for youth, adults and families through education, prevention, and intervention strategies.
<b>Program Hashtags</b>	Community Education, Mentorship/Career Training/Internship, Prevention,

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Facilitate communication and collaboration between community members, providers, patients, CCHI staff and other professionals.	Shared City’s Coronavirus Awareness Booklet to coalition members, along with other information on resources/services. Recruited and trained health center staff & volunteers to work as Contact Tracers.	Process Goal	Year 1 of 3
Participate in the East Boston Neighborhood Trauma Team to develop and implement responses to community violence incidents	Revamped the Peace Walks to "Peace Talks", moving from in-person Peace Circles to Zoom Peace Circles due to an increase in youth violence, including a series of shootings.	Process Goal	Year 1 of 3
Provide substance use prevention education to youth.	Held 2 meetings with the drama class at the Donald McKay to inform their substance use disorders documentary. Ran vaping prevention workshops for 300 middle school youth at the Umana Academy.	Outcome Goal	Year 1 of 3
Increase youth engagement and empowerment in the schools, coalition and community.	14 youth participated in summer program: Supported COVID-related food distribution, setup & social distancing adherence at weekly Farmer’s Market, & called families to set food pick-up appts.	Outcome Goal	Year 1 of 3
Raise awareness about recovery and substance use disorders services available for East Boston residents.	Hosted “The Opioid Project” at ICA Watershed. Featured art made by those in recovery & loved ones of those who overdosed; personalized audio messages accompanied the art. 135 youth brought to exhibit.	Process Goal	Year 1 of 3

## Massachusetts General Hospital Certified Application Counselors

<b>Program Type</b>	Access/Coverage Supports
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	Massachusetts General Hospital Certified Application Counselors (CACs) provide information about the full range of insurance programs offered by EOHHS and the Health Connector. Our CACs help individuals complete an application or renewal; work with the individual to provide required documentation; submit applications and renewals for the Insurance Programs; interact with EOHHS and the Health Connector on the status of such applications and renewals; and help facilitate enrollment of applicants or beneficiaries in Insurance Programs. In FY20, 27 MGH CACs contributed to the estimated 65 patient financial counselors that served patients who needed assistance with their coverage.

## Connect to Wellness

<b>Program Type</b>	Community-Clinical Linkages
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	<p>Connect to Wellness is a partnership between Massachusetts General Hospital and Boston Senior Home Care that began in April 2017 and offers on-site health and social services to residents living in three apartment buildings surrounding the hospital campus in Boston's West End and Beacon Hill.</p> <p>Through a part time staff that includes a registered nurse, licensed independent clinical social worker, and community resource specialist, the Connect to Wellness program is a resource available to over 400 elderly and disabled adults who are living in these buildings (Beacon House, Blackstone Apartments, and Amy Lowell Apartments). The team spends one day per week at each location and offers services such as clinical office hours, informational sessions, and health promotion presentations. The objective of this community collaborative is to assist all residents in maintaining independence as they age in place by identifying social and health related needs and providing intervention.</p>
<b>Program Hashtags</b>	Community Education, Health Screening,
<b>Program Contact Information</b>	Molly Vespa

### Program Goals:

Goal Description	Goal Status	Goal Type	Time Frame
Provide health and social services to residents of Amy Lowell, Beacon House, and Blackstone Apartments.	In FY20 the Connect to Wellness team has engaged with 194 Boston residents from all three buildings— 56 from Beacon House, 57 from Amy Lowell, 81 from Blackstone.	Outcome Goal	Year 1 of 3
Support older adults' and adults with disabilities to live safely and independently in the community.	There were 1079 total contacts made in FY20 (11% increase from FY19). There were 636 encounters by RN, 93 by LICSW, and 350 by CHW.	Process Goal	Year 1 of 3
Provide older adults and adults with disabilities with on-site educational opportunities.	In FY20, team disseminated 1000 care kits, 500 reusable masks, 30 blanket kits, 3 editions of CtW news. Piloted Cyber-Seniors technology prog. (8 participants) & made wellness calls to 200 enrollees.	Outcome Goal	Year 1 of 3
Improve older adults and adults with disabilities ability for self-health management and independence through education and health promotion.	In FY20, CtW restructured the team to better meet the needs of our residents. A CHW replaced the CRS role and community outreach coordinator position was created.	Process Goal	Year 1 of 3

**Health Starts at Home (HSAH)**

<b>Program Type</b>	Community-Clinical Linkages
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The objective of Health Starts at Home (HSAH) is to provide a housing stability intervention and to assess its impact on health care utilization and select health outcomes. HSAH is a partnership between MGH, The Neighborhood Developers, and Roca. Patients at MGH Chelsea are screened for housing insecurity. If they are housing insecure, they are referred to CONNECT, a partnership of five agencies that work with clients on housing and financial stability. HSAH with the original goal of enrolling 150 participants. In April 2018, the enrollment period closed and HSAH was able to enroll 120 participants. These 120 participants were then contacted every 6 months until they reached 24-months of follow-up. In April 2020, data collection officially ended. 44 participants out of the original 120 were retained throughout the entire study period. The data presented in this report compares the baseline and 24-month data of the 44 participants.
<b>Program Hashtags</b>	Prevention,
<b>Program Contact Information</b>	Nequiel Reyes

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Improve child health.	More caregivers rated the health of the index child as Excellent, Very Good, or Good at the 24-month follow-up than at baseline (89% at 24-month follow-up vs. 64% at baseline).	Outcome Goal	Year 1 of 3
Improve caregiver health.	More caregivers enrolled in HSAH rated their own health as Excellent, Very Good, or Good at the 24-month follow-up than at baseline (70% at 24-month follow-up vs. 43% at baseline).	Outcome Goal	Year 1 of 3
Improve caregiver mental health.	Caregivers had less anxiety and depression at the 24-month follow-up than at baseline (Anxiety: 32% at 24-month vs. 64% at baseline; Depression: 25% at 24-month vs. 48% at baseline).	Outcome Goal	Year 1 of 3
Improve housing stability.	Reported satisfaction with housing increased from baseline and the 12-month follow up (57% were Very Satisfied or Satisfied at 24 months vs. 18% at Baseline).	Outcome Goal	Year 1 of 3

**Refugee Health Assessments**

<b>Program Type</b>	Direct Clinical Services
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	Massachusetts General Hospital has been a designated refugee health assessment site since 2001, and the program receives funding from the Massachusetts Department of Public Health. The health status of new arrivals is monitored through the initial refugee health assessment (RHA). The assessment provides the opportunity for early identification of communicable and other conditions which, if undetected, can negatively impact public health as well as a refugee's wellbeing and ability to achieve self-sufficiency.
<b>Program Hashtags</b>	Health Screening, Prevention,
<b>Program Contact Information</b>	Ali, Abdullahi, Manager of the Refugee and Immigrant Health Program

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Conduct refugee health assessments with refugees and asylees in Chelsea.	In FY20, 26 new refugees and asylees had refugee health assessments at MGH Chelsea. Countries of origin: 100% El Salvador.	Outcome Goal	Year 1 of 3
90% of patients will complete their two Refugee Health Assessment visits within 90 days of arrival in US.	In FY20, 83% of the 26 refugee and asylee patients completed their two Refugee Health Assessment visits within 90 days of arrival. The average number of days from US entry to initial visit is 47.3.	Outcome Goal	Year 1 of 3
Integrate patients into MGH Chelsea Complex Patient Population (CPP) Program to connect to services.	See CPP AG Report.	Outcome Goal	Year 1 of 3

**Healthy Families**

<b>Program Type</b>	Access/Coverage Supports
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The Healthy Families program at MGH Chelsea builds secure parent-child attachment, enriches child development, fosters empathetic parents, supports families to reduce their stress, and builds protective buffers for their children. Healthy Families America is a nationally- recognized, evidence-based home visiting program model designed to work with overburdened families who are at-risk for adverse childhood experiences, including child maltreatment. Healthy Families America at MGH Chelsea is a home visitor service provided to first-time parents including those newly arrived in this country. The program runs from pregnancy through the child’s third birthday. Bi-cultural home visitors go to the homes of high-risk pregnant women and new mothers and provide emotional and concrete support for the participants and families who are adjusting to a new culture and health care system. We aim to empower mothers in a culturally appropriate manner to help them find effective solutions and reduce parental stress.
<b>Program Hashtags</b>	Community Education, Community Health Center Partnership, Prevention,

**The Kraft Center for Community Health at Massachusetts General Hospital**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	The Kraft Center for Community Health aims to catalyze innovative solutions to real world community health problems, execute solutions locally, and make them scalable and ready to spread nationally to improve health outcomes for disadvantaged populations throughout the Massachusetts and nationally. Current programming addresses addiction, cancer care inequities, obesity, and training initiatives in primary care and community health. The Center's mobile health program combines harm reduction, clinical services including medication-assisted treatment (MAT), data hotspotting, and mobility to bring addiction services to Boston's most vulnerable residents living with substance use disorder (SUD). The Center supports several cancer care equity projects, including a pilot funding opportunity for Greater Boston community health centers to implement innovative, sustainable programs to combat inequities in cancer care and outcomes. The Center's programming also addresses childhood obesity, where the First 1,000 Days program supports mother-father-infant triads from early pregnancy until the child's second birthday providing counseling to reduce risk of obesity and other chronic diseases. Finally, the Center continues its work in training initiatives in primary care and community health, supporting both a primary care fellow as well as a local intern.

<b>Program Contact Information</b>	Dr. Elsie Taveras, 617-726-8555

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Provide targeted mobile addiction programming to improve access to harm reduction services and clinical care including MAT for people with SUD at high risk for overdose.	Since its launch on 1/16/18, the mobile team made 12,499 contacts with drug users, had 1,843 patient encounters, wrote 1,119 prescriptions for MAT, and distributed 3,962 naloxone kits.	Outcome Goal	Year 3 of 3
Since its launch on 1/16/18, the mobile team made 12,499 contacts	In 2020, 3 additional Community Care in Reach® sites were		

with drug users, had 1,843 patient encounters, wrote 1,119 prescriptions for MAT, and distributed 3,962 naloxone kits.	added in Brockton, Springfield, and Worcester. The Center is also leading technical assistance & evaluation efforts for 4 state-funded sites.	Process Goal	Year 3 of 3
Bring innovative programming to community-based settings to reduce inequities in cancer care and outcomes in Greater Boston.	Launched the Implementation Science Center for Cancer Control Equity and held two virtual trainings with participation of 25 health centers and implementation of equity projects in 2 health centers.	Process Goal	Year 3 of 3
Rapidly mobilize COVID response initiatives that prioritize equity and expansion of access to essential resources and services.	Assembled care kits for vulnerable patients in isolation, mobilized childhood vaccine sessions for 50 patients, and launched mobile COVID testing in Charlestown, Chelsea, Everett, Lynn, & Revere.	Process Goal	Year 3 of 3
Continue to promote community health leadership through training.	Provided mentorship and community health training to 1 primary care fellow. Also hired and provided guidance to a local intern.	Process Goal	Year 3 of 3

## COVID Hot Spot Campaign

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	In response to the increase in COVID-19 cases in August of 2020, Mass General Brigham created a campaign called “Keep Cases Down” to educate hot-spot communities about the increasing cases and remind people to wash their hands, socially distance, avoid large gatherings, and wear a mask. The campaign ran from August 18, 2020 – September 13, 2020 and was translated into the 9 languages most commonly spoken in the hot spot communities.
<b>Program Hashtags</b>	Community Education,
<b>Program Contact Information</b>	Tavinder Phull MPH, MBA, Mass General Brigham Community Health

### Program Goals:

Goal Description	Goal Status	Goal Type	Time Frame
Increase awareness about COVID-19 cases and protective measures.	Implemented a digital media campaign including paid social image posts and educational videos of community leaders.	Process Goal	Year 1 of 1
Increase awareness about COVID-19 cases and protective measures.	Digital campaign collectively delivered 19MM impressions.	Process Goal	Year 1 of 1
Increase awareness about COVID-19 cases and protective measures.	Patient Gateway emails sent in 9 languages.	Process Goal	Year 1 of 1
Increase awareness about COVID-19 cases and protective measures.	Text alerts by community leaders sent to 130,000 patients.	Process Goal	Year 1 of 1
Increase awareness about COVID-19 cases and protective measures.	Community Toolkit developed for members of the community to share with constituents.	Process Goal	Year 1 of 1

<b>Program Type</b>	Access/Coverage Supports
<b>Program is part of a grant or funding provided to an outside organization</b>	Yes
<b>Program Description</b>	<p>Partners has a long commitment to community health centers. MGH's licensed community health center in Charlestown was founded in 1968, and Brookside Community Health Center became part of BWH in approx. 1974. Today, there are five licensed health centers operating within the overall Partners system: three of which operate through the license of MGH in Charlestown, Chelsea, and Revere and two of which operate under the license of BWH in Jamaica Plain -- Brookside CHC and Southern Jamaica Plain CHC. In addition, Partners is affiliated with 15 community health centers in Dorchester, East Boston, Jamaica Plain, Lynn, Mattapan, North End, Peabody, Roxbury, Salem, South Boston, and the South End. Since 1996, Partners and its hospitals have provided more than \$40 million in support to these affiliated CHCs to rebuild, relocate, or modernize aging facilities.</p> <p>MGH, BWH, and Partners have made a concerted effort to improve access to care for community health center patients, helping health centers move from cramped, outdated buildings to modern facilities with updated computer information systems and medical technology. Over time, our relationships with each of these health centers have evolved uniquely for each health center to provide the most responsive support possible.</p>
<b>Program Hashtags</b>	Community Health Center Partnership,
<b>Program Contact Information</b>	Tavinder Phull MPH, MBA, Mass General Brigham Community Health

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
------------------	-------------	-----------	------------

Improve access to care for community health center patients.	Gynecologists and nurse midwives from BWH provide clinical care at affiliated community health centers in Dorchester, Mattapan, Roxbury, and the South End.	Process Goal	Year 4 of 4
Improve access to care for community health center patients.	The MGH AVON program provides navigators to help patients from Chelsea and Mattapan get breast cancer screening, follow up and treatment.	Process Goal	Year 4 of 4
Improve access to care for community health center patients.	North Shore Medical Center cardiologists and urologists provide treatment for patients in Lynn.	Process Goal	Year 4 of 4
Expand the state's supply of primary care providers at community health centers.	The Mass. League's CHC Provider Loan Repayment Program-Through 2018, more than 300 primary care providers have committed to work in a CHC for up to two years in exchange for loan repayment.	Outcome Goal	Year 4 of 4
Support the state's community health centers in their continued efforts to reduce barriers to access, promote health equity and organize care for patients in their communities.	Grants awarded through the Partnership for Community Health have provided support to community health centers to develop and launch measurable programs that enhance health outcomes, services, efficiencies and quality of care.	Outcome Goal	Year 4 of 4
Provide hunger assistance grants to licensed and affiliated community health centers.	Provided \$500 grants to 17 licensed and affiliated community health centers to support new or existing hunger assistance activities.	Outcome Goal	Year 4 of 4
Provide grants to support licensed and affiliated health centers with existing food pantries.	Provided \$5000 grants to support 6 of our licensed and affiliated community health centers with onsite food pantries.	Outcome Goal	Year 4 of 4
Provide access to community-based health care.	BWH and MGH licensed health centers provide care to more than 84,000 children and adult patients annually.	Outcome Goal	Year 4 of 4
Provide access to community-based care.	Partners is affiliated with 15 community health centers in Dorchester, East Boston, Lynn, Mattapan, North End, Peabody, Roxbury, Salem, South Boston, and the South End.	Process Goal	Year 4 of 4
Strengthen community health centers in Partners communities.	Since 1996, Partners and its hospitals have provided more than \$40 million in support to these affiliated CHCs to rebuild, relocate, or modernize aging facilities.	Process Goal	Year 4 of 4

## The Mass League's CHC Provider Loan Repayment Program

<b>Program Type</b>	Access/Coverage Supports
<b>Program is part of a grant or funding provided to an outside organization</b>	Yes
<b>Program Description</b>	Mass General Brigham collaborates with the Massachusetts League of Community Health Centers (Mass. League) and other organizations to ensure patients have access to primary care close to home. Toward that end, since 2007, Mass General Brigham has provided annual funding to support the administration of state-wide educational loan repayment programs for primary care providers and other clinicians and grant programs to retain existing clinicians. The Mass. League has worked with a variety of funders to support these initiatives over the past 13 years, including Bank of America, Mass. Dept. of Public Health, Mass. Dept. of Mental Health, and MassHealth. Several hundred clinicians, including primary care physicians, nurse practitioners, dentists, and social workers have benefited from these programs.

## RIZE Massachusetts

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	Yes
<b>Program Description</b>	<p>RIZE Massachusetts Foundation (RIZE) was founded in response to the opioid overdose crisis. RIZE is dedicated to expanding access to treatment and other services for opioid use disorder (OUD), measuring the effectiveness of our work, and replicating programs achieving the greatest impact. To date, RIZE has distributed over \$7.0 million in grants to more than fifty Massachusetts organizations.</p> <p>RIZE's focus areas are: Care - comprehensive, compassionate, and sustainable approaches to prevention, harm reduction, treatment, and recovery; knowledge - data, commissioned</p>

research, and evaluation to expand the evidence base and inform policy; and; human impact - efforts to reduce the economic impact on workers, businesses, and communities. We conduct our work mainly in three ways: grantmaking; policy and research; and convenings.

**Program Hashtags** Community Health Center Partnership, Health Professional/Staff Training, Prevention, Research, Support Group,

**Program Contact Information** RIZE Massachusetts Foundation, Inc.

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
<p>Partner with relevant organizations to inform state and local actors and other stakeholders to align thinking and approaches to SUD policy and services.</p>	<p>Partner with relevant organizations to inform state and local actors and other stakeholders to align thinking and approaches to SUD policy and services.</p> <p>In 2019, RIZE launched Together in Recovery: Supporting Informed Decisions (TiR) to address the philosophical divides that arise in OUD treatment. The main goals are to foster an accessible, integrated treatment and recovery community in Massachusetts that champions evidence-based approaches, supports multiple pathways of recovery, and puts people in charge of their treatment choices.</p> <p>Through a Change Team of diverse influencers, RIZE convened eight regional and one statewide meeting to examine the many challenges associated with OUD treatment. We heard about the barriers that exist for both people seeking treatment and those in long-term recovery from advocates, providers, parents, and school administrators, among others. We then took the data gathered across the state to finalize a Priorities for Action document that embraces a unified vision representing varied perspectives of treatment.</p> <p>One of these priorities is to create and disseminate a Your Rights in Recovery toolkit. The toolkit is a turnkey, digital educational tool and resource individuals and families can access on RIZE’s website. It addresses issues such as rights related to recovery pathways, family resources, housing, education, employment, and the criminal justice system. The content is available in both English and Spanish and was launched at a live webinar with Attorney General Maura Healey on April 8, 2021.</p>	<p>Outcome Goal</p>	<p>Year 2 of 4</p>
<p>Provide effective and compassionate services and supports to people with OUD; address barriers to care for people with OUD; and support the staff who are providing services to people with OUD by equipping them to do their work effectively, compassionately, and sustainably.</p>	<p>To date, RIZE has distributed over \$7 million in grants to more than 60 Massachusetts organizations.</p> <p>To further advance our racial equity agenda, RIZE implemented our Innovations in Anti-Racism to Address the Overdose Crisis program. This program provides grants to four Massachusetts organizations creating meaningful results in fighting racism and improving access to evidence-based addiction treatment by reducing the stigma and structural barriers faced by Black, Indigenous, People of Color (BIPOC). We also partnered with the Cambridge Health Alliance Health Equity Research Lab (HER Lab) to perform the evaluation for this program.</p>	<p>Outcome Goal</p>	<p>Year 4 of 4</p>
<p>COVID-19 Rapid Response Grants</p>	<p>In response to these challenges, we partnered with the Boston Resiliency Fund, a COVID-19 related philanthropic rapid response effort, and were awarded a grant of \$250,000 that we matched in-full. RIZE is working closely with the city of Boston Mayor’s Office of Recovery Services to help front-line health care workers that serve people with OUD. Support was given to residential programs and organizations assisting with outdoor comfort stations that provide harm reduction services, screening for COVID-19, and connections to care and treatment for individuals experiencing homelessness. These community contributions are in addition to rapid response grants RIZE awarded to our frontline community partners in March. These two funding initiatives total \$705,000.</p>	<p>Outcome Goal</p>	<p>Year 1 of 1</p>

## Health Explorers at Camp Harbor View

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	Yes
<b>Program Description</b>	<p>As part of Mass General Brigham's™ commitment to building tomorrow's™ health care workforce, Mass General Brigham has developed a partnership with Camp Harbor View to engage campers's™ curiosity about science, introduce them to the educational connections between school and health careers and promote healthy choices and behaviors. Camp Harbor View, located on Long Island in Boston Harbor, provides a learning and camp environment for over 900 Boston children and adolescents. It is funded through the Camp Harbor View Foundation, a nonprofit organization. Each summer, Mass General Brigham organizes two Health Career Education days to introduce campers to the idea of working in the medical field. Over 40 staff members from Mass General Brigham affiliated hospitals visit the camp and work through fun activities such as teaching campers how to make casts using inflatable gloves, playing a life- sized game of operation and promoting teamwork in an operating room by dressing campers in OR-scrubs and completing an obstacle course. Campers also learn about different professions including speech pathology and physical therapy and the education required to hold those positions. Some Leaders in Training (LITs, ages 14-17) interested in careers in health care also take part in two-week internships at hospitals and health centers affiliated with Mass General Brigham. These internships offer older teenagers a chance to see what a future in health care might look like, and equips them with the knowledge to seek out that path. LITs are also able to take advantage of resume writing workshops put on at the camp by Mass General Brigham Workforce Development group.</p> <p>With a focus on low income children and adolescents, 98% of whom identify as African American and Latino, Camp Harborview introduces campers to health care and science as a career path.</p> <p>Due to the COVID-19 pandemic, Camp Harbor View was not able to host its in person summer day camp in 2020, but the staff was able to pivot and provide enriching, entertaining, and educational experiences via Zoom and remote learning/engagement. Over 10 Mass General Brigham clinicians participated in a variety of career exploration panels with the 10th-12th grade LIT participants.</p> <p>Mass General Brigham partnered with CHV to set up a COVID-19 vaccination clinic at the Strand Theater exclusively for the CHV community. Our infectious disease clinicians also participated in several zoom sessions to address any questions about the safety and effectiveness of the vaccine.</p> <p>Volunteers from Mass General Brigham and Mass Eye and Ear volunteered at two drives at CHV's™ facility to organize and distribute donations of board games, books, toys, household items and food for campers's™ families.</p>

**MGB Summer Jobs Program**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	Brief Description or Objective Brigham and Women’s Hospital and Massachusetts General Hospital, founding members of Mass General Brigham, are leaders at providing summer job opportunities for Boston’s youth through Mayor Walsh’s Summer Jobs Program. In 2020, about 347 BPS students had jobs at BWH, MGH, and Faulkner through this program. The total count for all summer jobs across Mass General Brigham hospitals in 2020 was as follows: Brigham and Women’s Hospital: 222 Brigham and Women’s Faulkner Hospital: 13 Massachusetts General Hospital: 112 Newton Wellesley Hospital: 20 North Shore Medical Center: 16
<b>Program Hashtags</b>	Mentorship/Career Training/Internship,

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
Provide students with meaningful summer job experiences and mentoring.	In FY20, 347 students were hired for virtual summer positions at Brigham and Women’s Hospital, Brigham and Women’s Faulkner Hospital, Massachusetts General Hospital, Newton Wellesley Hospital, and North Shore Medical Center.	Outcome Goal	Year 4 of 4
Provide students with meaningful summer job experiences and mentoring.	BWFH and BWH virtual programming included: Science and Public Health Projects, remote work directly in hospital departments and other community partners, Financial Literacy education, and networking and educational seminars.	Process Goal	Year 4 of 4
Provide students with meaningful summer job experiences and mentoring.	MGH virtual programming included Professional Development Workshops, Financial Literacy workshops, and Career Exploration via a speaker series.	Process Goal	Year 4 of 4
Provide students with meaningful summer job experiences and mentoring.	Salem Hospital Virtual Summer Jobs Program, in partnership with North Shore Community College and MassHire, focused on healthcare career exploration, skills building for future employment, and virtual tours of hospital units and departments.	Process Goal	Year 4 of 4
Provide students with meaningful summer job experiences and mentoring.	NWH Virtual Summer Jobs program, in partnership with Waltham Partnership for Youth and Mass Bay Community College, focused on career exploration, virtual classes to enable interns to obtain college credits, and skills building workshops.	Process Goal	Year 4 of 4

**Patient Care Associate (CNA) Training Program/ DTA Works-Health Care Administrative Support Training Program, Environmental Service Worker Training Program**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	No
<b>Program Description</b>	<p>To serve low-income community residents more effectively, as well as meet the demand for critical hard-to fill roles in healthcare during the COVID-19 crisis, we transitioned from running community programs internally to collaborating with community-based organizations and state agencies to create and conduct pipeline training programs. This partnership model allowed us to increase the number of individuals we recruit and serve, as well as to create stronger talent pipelines thanks to the deep community connections of our CBO partners. To follow safety protocols, all training sessions were switched to the remote/blended format.</p> <p>Patient Care Associate (PCA) Training Program is a 6-week free, training program for community residents to earn a nursing assistant certification and receive placement assistance in permanent PCA positions at Brigham and Women's Hospital. The program was developed by Mass General Brigham Workforce Development in collaboration with HEART Consortium/Center for Community Health Education and Research and Service (CCHERS), Academy for Healthcare Training, as well as Brigham Health Talent Acquisition and Workforce Development. The syllabus is comprised of online clinical instruction, in-person skills practice sessions, as well as clinical training in a skilled nursing facility. The job readiness component is facilitated by Mothers for Justice and Equality and includes such topics as trauma informed job readiness, financial literacy, transitioning to hierarchical hospital employment, managing home-work balance. HEART/CCHEERS instituted a robust outreach and recruitment program to identify individuals who live in the target area (residents of public and publicly assisted housing living along the Southwest Corridor from Chinatown through the South End and Roxbury into Mission Hill and out to Jamaica Plain and Roslindale). HEART worked in collaboration with MGB and Brigham Health Workforce Development, Human Resources and Nursing teams to screen and assess potential applicants for CNA training, and participate throughout the decision-making process for enrollment, recognizing that MGB/Brigham Health has ultimate decision-making responsibility for each training enrollee in accordance with its policies and procedures, and as the potential employer for training candidates.</p> <p>DTA Works' Health Care Administrative Support Program was offered in partnership with the Massachusetts Department of Transitional Assistance and Project Hope. It prepares recipients of Transitional Aid to Families with Dependent Children (TAFDC) for successful entry or re-entry</p>

into the workforce through mentorship, a 6-week virtual job readiness training, and up to 6 months paid by the State internships within MGB. Successful program graduates are provided post-internship job placement assistance services and on-the-job support.

Health Care Environmental Service Worker Training Program is a 3-week intensive online training designed by BEST Hospitality Training in partnership with MGB Workforce Development and MGB Talent Sourcing Team to meet the growing need for environmental service aides during the COVID-19 crisis. Conducted by Best Hospitality Training, this program focuses on topics such as healthcare workplace environment/environmental service aide position and terminology, chemical safety, illness prevention, ergonomics, HIPPA, communication skills, customer service, conflict resolution, professionalism, interview skills and resume writing, and computer skills. Upon completion, program participants are assisted with placement in environmental service aide roles at MGB and other Boston area healthcare organizations. It is important to note that while the first cohort only resulted in 1 MGB hire, (due to availability of f/t roles), the trainees were hired by other Boston Hospitals, such as Boston Children's Hospital and BIDMC.

Spaulding PCA/CNA Program and Partners in Career and Workforce Development Training Program. It is a 5-week long program offered in conjunction with the Spaulding Rehabilitation Network and the Academy for HealthCare Training, where participants will earn dual Nursing Assistant and Home Health Aide certificates and receive placement assistance focusing on permanent PCA employment within Spaulding Rehabilitation Network. The program includes both classroom-based instruction and a hands-on clinical experience at a skilled nursing facility. While we do not run PCWD program internally any longer, we continue working with the PCWD alumni to provide them with on the job assistance and academic/professional development coaching services.

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
<p>Provide low-income community residents with training, career coaching/case management, internships and job placement services which offer family-sustaining wages, generous benefits, and opportunities for advancement within Mass General Brigham while meeting managers'™ needs for highly skilled employees.</p>	<p>Patient Care Associate Training Program enrolled 9 participants for the first pilot cohort that started on February 24, 2020. Due to COVID, the program was put on hold in March and then resumed in September as online instruction and in-person skills practice. 1 participant was placed in permanent unit coordinator position at BWH prior to the training restart, in April 2020 (with the starting salary of \$16.24 per hour). 6 more participants are scheduled to finish their training and be placed as PCAs in October-December 2020. A new cohort of 9 will be starting on November 9.</p> <p>DTA Works " Health Care Administrative Support Program start was delayed due to COVID till June 15, 2020. 8 individuals were enrolled in the program, all of them graduated and were placed in remote internships within MGB Corporate and Always Health on July 27. Interns are supported by MGB WFD with any question/issue on their internships, as well as they have regular case-management check-ins with Project Hope. Internships are scheduled to end in February of 2021 and will be assisted with job search for permanent roles within MGB, if interns are interested.</p> <p>Health Care Environmental Service Worker Training Program enrolled and trained 12 individuals in June 2020. Out of 12 who graduated, 1 graduate was placed in full-time EVS position with the salary of \$16 per hour. Another cohort of 9 started their training in September and it will be assisted with their job search upon graduation in October.</p> <p>Spaulding PCA/CNA Program and Partners in Career and Workforce Development Training Program Out of 64 students graduating from SRN PCA program, 64 were placed with the average salary of \$15.37 per hour. Our longest-standing PCWD program has served 702 since inception in 2004 with the latest current average starting salary (10/1/2018-09/30/2019): \$16.92 per hour (\$35,193 annually). This is the last placements</p>	<p>Outcome Goal</p>	<p>Year 1 of 3</p>

<p>Connect program graduates to Partners HealthCare and affiliate-based Workforce Development programs and resources.</p>	<p>period.</p> <p>Graduates are eligible to participate, after meeting employer-specific criteria, in onsite career development classes and initiatives from educational opportunities to advanced clinical training, career and academic coaching, and leadership development. Onsite classes offered within various MGB member institutions include: English for Speakers of Other Languages (ESOL); Adult Basic Education (ABE); pre-college; computer skills; management &amp; leadership training as well as specific clinical &amp; non-clinical advanced training opportunities. After six months of employment, graduates seeking career advancement opportunities are referred to the Mass General Brigham Career Coach who works with them one-on-one to set personal and professional goals and guide them as they work towards them. Community program graduates are also offered resources to advance in their career through Mass General Brigham Advancing Careers Through Education Program, which includes assessment, academic, and college readiness support. During the period from FY10 through FY20, 78 PCWD graduates enrolled in the Partners HealthCare Online College Preparation Program (OCP) and other online programs, designed to help individuals navigate the online learning environment. Online educational options help to increase access to higher education for working adults. From FY14 to June of FY20, 27 PCWD graduates participated in College for America (CfA), and are currently enrolled in online, competency-based, AA degree, BA degree and Certificate programs.</p>	<p>Process Goal</p>	<p>Year 1 of 3</p>

**Scholarship Program**

<b>Program Type</b>	Total Population or Community-Wide Interventions
<b>Program is part of a grant or funding provided to an outside organization</b>	Yes
<b>Program Description</b>	The Scholarship Program was established in 2012 to provide assistance in applying to and attending college, partial scholarships, and academic support services to enhance the educational success of low income high school students participating in the Brigham and Women's Hospital Student Success Jobs Program and the MGH Youth Scholars Program.

The aim of the program is also to address the need for proficient and traditionally under-represented populations in health, science and medical careers to enter, persist, and graduate from college. In addition to students receiving renewable, partial four- year scholarships upon matriculation to college, students also receive educational support including academic tutoring in math and science, college preparation for the SAT exam and financial aid, mentoring and career exposure at BWH and MGH, as well as social support and life skills. All students who receive scholarships are referred to as Scholars.

A longitudinal evaluation conducted annually indicates the following results: 82% of Scholars graduated from college in five years compared to national average of 55% in six years; Scholars average SAT scores are 7% higher than their BPS peers; Black and Latino Scholars are staying enrolled in college at higher rates than their national peers (91% compared to 67%); 76% of Scholars attend four year colleges compared to 47% of BPS students and 60% across Massachusetts; 92% of Scholars did not need remedial classes while attending college.

**Program Hashtags**

Mentorship/Career Training/Internship, Physician/Provider Diversity,

**Program Contact Information**

Pam Audeh, BWH CCHHE, Christy Egun, MGH CCHI

**Program Goals:**

Goal Description	Goal Status	Goal Type	Time Frame
To provide high school graduates of the BWH SSJP program and MGH Youth Scholars with four year renewable scholarships.	In FY20, 175 renewable scholarships were provided: 101 at BWH and 74 at MGH.	Outcome Goal	Year 4 of 4
To support high school students as they prepare for and complete college.	In summer of 2020 programming was added to better prepare rising college freshmen for remote academics, how to be part of a community while not physically there, and assistance in the financial process with dorm and living arrangement changes. Additionally, an academic coach was deployed to assist with remote learning, help keep people on track and motivated, and assist with the unusual transitions to college. Subject level tutoring was also offered if needed. Increased check-ins for college students with our staff Social Worker to support student mental health well-being was also implemented.	Process Goal	Year 1 of 1
To support high school students as they prepare for and complete college.	To date, 175 students have finished college: 98 at BWH and 77 at MGH. Of these 86 are employed 49 at BWH, MGH or a Mass General Brigham affiliate. Forty-two are pursuing graduate education, either medical school or grad school.	Outcome Goal	Year 4 of 4
To provide work experience and career training/internships.	In FY20, BWH and MGH offered high school students paid school year and summer internships. Over 95% of our students rated the paid internship experience as very important for their professional growth.	Outcome Goal	Year 4 of 4

**Hospital Publication Describing CB Initiatives:** Not Specified

**Bad Debt:** Not Specified

**Bad Debt Certification:** Not Certified

Mass General Brigham (MGB) System Commitments:

In addition to commitments made by the member hospitals, Mass General Brigham makes system investments aimed at:

- Leveraging our business practices around inclusive local hiring and workforce development, local and diverse sourcing and place-based investing to tackle underlying causes of poor health outcomes in the communities we serve.
  - Addressing critical public health issues impacting all of our communities. In response to the opioid overdose crisis, RIZE Massachusetts Foundation is dedicated to expanding access to treatment and other services for opioid use disorder (OUD).
  - Ensuring access to primary care close to home. MGB provides administrative support to the Mass League of Community Health Centers Provider Loan Repayment Program that recruits primary care physicians to work at community health centers.
  - Ensuring access to care for our low income community residents by supporting state program enrollment. MGB Community Health staff provide education and support across the system to ensure that patients on MassHealth, Health Safety Net, and the subsidized Connector plans can access care smoothly across the system.
  - Exposing low income youth to health care and science as a career path. In addition to the hospital programs, system support is provided to Camp Harborview, The Scholarship Program, and MGB Summer Jobs for youth.
  - Building pathways for professional success for incumbent employees and community residents. The Partners in Career and Workforce Development (PCWD) program addresses the Boston health care industry's need for a highly skilled diverse workforce.
  - Ensuring access to care for our low income community residents by supporting community health centers. There are 5 licensed health centers operating within the MGB system – MGH Charlestown, MGH Chelsea, and MGH Revere operate through the MGH license; and Brookside and Southern Jamaica Plain operate through the BWH license. In addition, Partners is affiliated with 15 community health centers in Boston (Dorchester, East Boston, Jamaica Plain, Mattapan, North End, Roxbury, South Boston, South End), Lynn, Peabody, and Salem.
- In response to the increase in COVID-19 cases in August of 2020, Mass General Brigham created a campaign called "Keep Cases Down" to educate hot-spot communities about the increasing cases and remind people to wash their hands, socially distance, avoid large gatherings, and wear a mask. The campaign ran from August 18, 2020 – September 13, 2020 and was translated into the 9 languages most commonly spoken in the hot spot communities.

MGH is engaged in anchor strategies around hiring, investing, and purchasing. MGH Board of Trustees have created a committee on Anchor Strategy. MGH is also engaged in the MGB strategy work as part of committees.

**Optional Supplement:**

Further, MGH community coalitions have worked to gather and disseminate resources to the communities we serve, in addition to assisting with translating materials. Staff from the Healthy Chelsea coalition participated and/or lead Pandemic Response teams, including Food Assistance, Mental Health, Trauma and Substance, The Supplies subcommittee, and The Diversions subcommittee. In Charlestown, the coalition moved AA meetings outdoors and provided masks/sanitizers for participants. In Revere, organized peer resident/interpreter volunteer support group to help City nurses in phone calls to COVID+ patients, trained 19 interpreters covering 7 languages to handle incoming calls concerning COVID. In addition, HAVEN changed their work hours to 24/7 to support current domestic violence cases and new cases as well. Many Community Health Workers (CHWs) were redeployed to the Respiratory Illness Clinic once opened in Chelsea. CHWs assisted with calling all patients who were seen at the RIC and identifying any health-related social needs such as food insecurity, financial assistance, and COVID-19 materials such as soap, hand sanitizer and masks. Lastly, the Food Families partnered with the City of Chelsea and helped order over 1 million pounds of food for both Suffolk & Middlesex

counties.

The resources to be committed in the implementation strategy submitted with this year's report include:

- Staff and community partners-work together via working groups and sub-committees to create new resources and programs and expand on existing programs across a variety of sectors/regional collaboration
- Expansion of existing programming/infrastructure via funding, space, staff, knowledge, etc.
- Shared measurement system to assess impact and process

Hospital Self-Assessment FY20 Optional COVID-19 question:

With the COVID-19 pandemic, all community programming moved from in-person engagement to virtual programming/support-as such, virtual programming has been beneficial in some respects but comes with certain challenges as many residents do not have internet access or access to reliable WIFI. Thus, program staff and community coalitions have used other methods to increase access to resources and meet basic needs, such as making deliveries to residents and utilizing different communication methods such as phone calls. For example, Healthy Chelsea staff were involved in the Food Assistance team by supporting the City's efforts as team captains and delivery volunteers; this initiative included making bi-weekly deliveries of boxes of food to quarantined/homebound residents. In addition, the Revere CARES Coalition organized a peer resident/interpreter volunteer support group to help City nurses in phone calls to COVID+ patients. Where possible, program staff held in-person meetings according to COVID safety protocols to maintain community engagement. For example, the Charlestown Coalition, during the warm weather months, held ongoing outside AA meetings that occurred 2x/day called the COVID Defiance Group. Masks and sanitizers were available at these outdoor meetings; it now has a page in the AA meeting list book and online through the AA Central Service Committee of Eastern Mass.
