

Healthcare Staff climate resources

Climate Change Advocacy Groups

Climate Code Blue	Climate Code Blue is a group of physician activists who believe that the climate crisis, like a “Code Blue” in the medical setting, requires urgent attention.	https://www.climatecodeblue.org/
Physicians for Social Responsibility Environment and Health Program	PSR’s Environment and Health Program amplifies the voices of health professionals and other advocates on the catastrophic consequences of climate change and other environmental hazards to health.	https://psr.org/issues/environment-health/

Climate Change and Health Information

Climate Psychiatry Alliance	As a grassroots collaboration of psychiatrists and other mental health professionals, we aim to nimbly and creatively advocate for change—educating and motivating others to act to protect health and build a sustainable world.	https://www.climatepsychiatry.org/
Climate Psychology Alliance	We are a diverse community of therapeutic practitioners, thinkers, researchers, artists and others who believe that attending to the psychology and emotions of the climate and ecological crisis is at the heart of our work.	https://climatepsychologyalliance.org/
Climate for Health / Eco-America	Climate for Health is a national initiative led by a diverse network of health leaders from across the health sector representing key health care, public health, clinical, and medical institutions and associations.	https://climateforhealth.org/about-climate-for-health/

Healthcare-Focused Climate Organizations

Health Care Without Harm	Health Care Without Harm seeks to transform health care worldwide so that it reduces its environmental footprint, becomes a community anchor for sustainability, and a leader in the global movement for environmental health and justice.	https://noharm-uscanada.org/
Alliance of Nurses for a Healthy Environment	The Alliance of Nurses for Healthy Environments (ANHE) is the only national nursing organization focused solely on the intersection of health and the environment.	https://envirn.org/
Practice Greenhealth	Practice Greenhealth is the nation's leading membership and networking organization for organizations in the health care community that has made a commitment to sustainable, environmentally preferable practices.	https://practicegreenhealth.org/

Nurses for Climate Change	The Nurses Climate Challenge is a global initiative delivered by Health Care Without Harm in partnership with the Alliance of Nurses for Healthy Environments that aims to mobilize nurses to educate health professionals about the health impacts of climate change.	https://nursesclimatechallenge.org/
Green Ribbon Commission	The mission of the Green Ribbon Commission Health Care Working Group (HCWG) is to help leading healthcare facilities in greater Boston reduce their emissions, make themselves and their communities more resilient to climate disruptions, and to advocate for the significant health benefits of carbon mitigation to patients and communities.	https://greenribboncommission.org/working-group/health-care/
MyGreenDoctor	Our mission is “to promote the charitable, non-profit, educational functions of My Green Doctor to help educate health professionals and their patients, and to motivate them to make changes in their lives, on topics of environmental sustainability and climate change.”	https://mygreendoctor.org/
My Green Lab	Welcome to My Green Lab®. We introduce sustainability to the community responsible for the world's life-changing medical and technical innovations.	https://www.mygreenlab.org/
Occupational Therapists for Environmental Action	Occupational therapy practitioners and students (OTPS) raising awareness about the impact of climate change on human health, wellness, and participation in meaningful occupations.	https://www.otenvironmentalaction.com/who-we-are

Climate Change Research and Education Opportunities

MGH Center for Environment and Health Webinars and podcasts	The Center for the Environment and Health works with leadership at Massachusetts General Hospital to integrate environmental sustainability into the clinical, research and educational activities of the hospital.	https://www.massgeneral.org/environment-and-health https://www.massgeneral.org/environment-and-health/healthcaresos
University of Colorado Diploma in Climate Medicine	Few clinicians can effectively articulate the dizzy interplay between public health, energy policy, geopolitics, earth science, government, and medicine. Climate Medicine Diplomates can fill that gap, crafting patient-centric narratives when working with CEOs, community leaders, and policymakers	https://medschool.cuanschutz.edu/climateandhealth/diploma-in-climate-medicine#ft-course-descriptions-2
Yale School of Public Health/ Climate Change and Health Certificate	The Yale School of Public Health's Climate Change and Health Certificate will prepare public health professionals, clinicians, mental health professionals, health educators, policymakers, environmental professionals, government officials, advocates, and others to address the adverse health impacts of climate change.	https://ysph.yale.edu/cchcert/

Caregiver and Educator Resources

Climate Psychology Alliance Resources	We are a diverse community of therapeutic practitioners, thinkers, researchers, artists and others who believe that attending to the psychology and emotions of the climate and ecological crisis is at the heart of our work.	https://www.climatepsychologyalliance.org/
