Fraser J. Leversedge, MD is Professor and Chief of the Section of Hand, Wrist, and Elbow Surgery in the Department of Orthopedics at the University of Colorado School of Medicine with a secondary appointment to the Department of Surgery – Division of Plastic and Reconstructive Surgery. He serves as Director of the Hand and Upper Extremity Surgery Fellowship and Co-Director of the Brachial Plexus and Peripheral Nerve Injury Program. Prior to arriving in Colorado in May 2020, Dr. Leversedge was Associate Professor and Vice-Chair, Education, in the Department of Orthopaedic Surgery at Duke University for 11 years where he was also the Director of the Hand Surgery Fellowship, and between 2001-2009 he was in private practice with Hand Surgery Associates in Denver.

Dr. Leversedge completed his undergraduate studies at Dartmouth College and his medical degree at Dartmouth Medical School before pursuing his orthopaedic surgery residency training at Emory University. He received his hand, upper extremity, and microsurgery fellowship training at Washington University in St Louis.

Dr. Leversedge has held numerous leadership positions for several regional and national societies, including being a member of the ASSH Council for two terms, as well as serving as the Research Division Director between 2016-2019. Dr. Leversedge has published over 90 peer-reviewed scientific articles, 25 book chapters, one book, and currently has an academic focus on peripheral nerve injury and repair as well as medical education. He has been the team leader for the ASSH / AFSH Touching Hands outreach program in San Pedro Sula, Honduras, since 2014. He is a consultant for many of the professional sports teams in Denver and has been an International Olympic Committee site physician for two Olympic Games: 2004 Athens (Men’s Basketball) and 2010 Vancouver (Men’s Ice Hockey).

Dr. Leversedge enjoys numerous outdoor activities such as biking, skiing, golfing, and fly fishing – particularly with his wife, Kimberly, and his three daughters!
