As Education Coordinator, my role is to train and develop clinical instructors/mentors and to ensure that student orientation and learning experiences are appropriate to achieve the outlined competencies. I will meet with you during your first week, and then periodically across the residency year. Additionally, I am available during your MGH educational experience, should you wish to discuss anything about your clinical experience.

Your will be attending general hospital orientation during the first day and a half of your MGH experience. The first two days are organized as follows:

Day one: Report to MGH Training and Development, located at 125 Nashua Street, Boston at 8:00 am. MGH Training and Development is in the old Spaulding Rehab Building. When you arrive ask for directions in the lobby to MGH New Employee Orientation.

Day two: Return to MGH Training and Development for the first half of the day. At 1:00 pm, please come to the PT Department on main campus, located in the Ambulatory Care Center Room 128 at 1:00 pm. Ask the receptionist to page Heather Kelly when you arrive. Heather will provide you with the department administrative orientation during the afternoon.

Day three: Report at your scheduled time to your CI/mentor on your assigned service/location.
