

LURIE CENTER

MASSACHUSETTS
GENERAL HOSPITAL

MassGeneral Hospital
for Children™

Research Opportunity:

Are you a parent of a child with autism?

Are you interested in **verbal and physical management training for aggressive behaviors**? If your child is a patient of the Lurie Center and between 5 and 12 years old, you may be eligible to participate in our Crisis Prevention Institute (CPI) training. This 12-week study is testing if CPI training helps parent stress and improves quality of life. Sessions are at the Lurie center and compensation is provided for time and travel.
