Planning for Two Generations

Thinking about the future needs of your child is often difficult for parents and caregivers.

The Lurie Center for Autism is pleased to host The Special Needs Financial Planning Team to help families learn more about how to best support the transition to adulthood. We recommend this educational opportunity whatever the age of your loved one with autism.

The team will share information and answer questions about changes relating to benefits, legal, financial and housing issues based on the Special Needs Planning Timeline™.

The Timeline highlights the various planning pressure points where parents should be aware of changes.
