“Clinical Research In Orthopedic Surgery: Where Are We Heading?”

Thursday, September 21, 2017
6:45 am - 7:45 am

Massachusetts General Hospital
O’Keeffe Auditorium
Ryan P. Calfee, MD, MSc is an Orthopaedic Hand Surgeon with Washington University Orthopaedics and an Associate Professor in the Department of Orthopaedic Surgery at Washington University School of Medicine in Saint Louis, MO.

Dr. Calfee received his undergraduate degree from the University of Virginia and in Charlottesville, VA and his medical degree from the Washington University School of Medicine. Dr. Calfee completed his residency, as well as a fellowship in Orthopaedic Trauma at Brown University and Rhode Island Hospital in Providence, RI. Dr. Calfee also completed a fellowship in Hand and Microvascular Surgery at the University of Cincinnati Hospital in Cincinnati, OH.

Dr. Calfee’s clinical practice focuses on the treatment of the hand, wrist, and elbow. His research interest includes the examination of patient-reported outcome measures, including the application of Patient-Reported Outcomes Measurement Information System (PROMIS) in the orthopaedic clinic. He is an active member within the American Society for Surgery of the Hand (ASSH) and serves as the Deputy Editor of Methodology for the Journal of Hand Surgery. Dr. Calfee was the 2016 Sterling Bunnell Travelling Fellow for the ASSH. His publications have been awarded the Paul R. Manske Award for best publication on pediatric upper extremity congenital differences, the Sumner L. Koch Award for the potential impact on hand surgery, and the Emanuel B. Kaplan Award for anatomical excellence.
