

Obesity is Curable: The New World of Weight Loss Treatment

Date: Wednesday, April 3, 2024

Time: 12–1 pm (Eastern Time)

Obesity rates are growing in the United States, affecting both adults and kids. Obesity is linked to an increased risk of several other medical conditions, including heart disease, diabetes, and depression. We will review the causes and complications of obesity as well as medication and surgical treatment options.

- This program is free and open to Mass General patients, families, staff, and the general public.
