Creating new models for education to improve patient care

Teaching and Education at MGH

We support faculty and staff working across domains to ensure that advances in medical science and clinical care are translated to every patient, all the time.

We provide this support via five key strategies:

Promote Educational Mission

- Bolster MGH's education leadership
- Educate internal and external audiences about the value of a "teaching hospital"

Sustain Educational Impact

- Strengthen external partnerships, alumni relationships, philanthropy and financial support for education

Invigorate the Educational Community

- Develop the community, skill set and careers of MGH clinician educators

Transform the Learner Experience

- Expand innovative approaches to customized, deliberate and interprofessional educational experiences

Evaluate Educational Effectiveness

- Increase education outcomes research and publication
