

“Greening the Lab” Consult Service

To request a customized consultation with the [Center for the Environment and Health \(CEH\)](#) at Massachusetts General Hospital, please complete and email a copy of this questionnaire to aduhaim@mgh.harvard.edu.

Before the consult, please review [our tip sheet](#) for creating a sustainable laboratory

Thank you for your interest in making your lab more sustainable! We look forward to working with you.

Please complete the following questions:

1. Name: _____
2. Role in lab: _____
3. PI (if different from above): _____
4. Location (please include street address, building name and room number):

5. Approximate size of lab (or number of bays): _____
6. Approximate number of people working in lab regularly: _____
7. Which of the following do you use? (check if applicable)
 - a. Freezers
 - i. Temperature: _____
 - b. Fume hood
 - c. Biosafety cabinets
 - d. Lasers
 - e. Equipment that could be turned off when not in use
 - f. Autoclaves
 - g. Styrofoam coolers

We will also cover the following topics during the consult:

- Waste—plastic, glass, equipment, etc.
- Chemical
- Appliances and/or equipment purchases/upgrades; Energy Star
- Personal protective equipment
- Animal use and transport
- Water—rinses, water baths, faucets, etc.
- Collaboration with other labs for purchases
